Foreword

The Ministry of Education/Ghana Education Service (MOE/GES) would like to thank the United States Agency for International Development (USAID) Partnership for Education: *Learning* for helping the Government of Ghana to improve the quality of early grade reading instruction in public basic schools. *Learning* supports the MOE/GES to improve learning outcomes in reading for pupils in KG2, B2, and B2 through a systematic phonics-based approach. This is achieved by developing and training teachers in the use of teaching and learning materials for reading instruction in 11 Ghanaian languages (GL) and oral English.

The reading program supported by *Learning* focuses on the teaching of the six most important components of reading instruction: phonological awareness, phonics (letter-sounds), fluency, vocabulary, comprehension and writing. The reading program is framed in the “simple view of reading,” which teaches pupils the skills needed to decode and to comprehend written words in order to become independent readers.

The reading program includes daily lessons with step-by-step instructions in a Teacher Guide, accompanied by a Pupil Book for each pupil in the classroom that contains pictures and texts that support the lessons. The Teacher Guide provides guidance on how to use the Pupil Book and other learning materials effectively to deliver engaging and effective reading lessons. The lessons are designed to be taught in 30-minute blocks, from Monday to Friday.

The Dagbani Prototype

The reading program has been prototyped in the Dagbani language as a precursor to the larger reading program in all 11 Ghanaian languages. The Teacher Guide and the Pupil Book developed for the Dagbani Prototype for B2, Terms 1 & 2 were piloted from January – July 2017 in 20 schools in the Yendi Municipal. Teachers, Headteachers, Curriculum Leads, Circuit Supervisors and Language Specialists from the Yendi Municipal were trained to strengthen their various roles to improve reading performance. This included trainings in reading pedagogy, classroom management, pupil assessment, and monitoring and supervision. *Learning* conducted base-line and mid-line assessment to track progress; and an end-line assessment will be conducted to find out how well the prototype has impacted the reading performance of the pupils. The mid-line results indicate that pupils who could read a syllable in Dagbani increased by 31% and pupils who could read a word in a decodable text increased by 26% after 8 weeks of prototype lessons.

We would like to particularly thank the Northern Regional Director of Education, the Municipal Director of Education and staff, teachers and pupils of the Yendi Municipal Assembly who have worked hard to ensure that the prototype reading program is successful.

Scale-up to the 11 Ghanaian Languages of Instruction

The prototype program was tested and refined; and the lessons learned during prototyping were fed directly into the development of teaching and learning materials for all 11 Ghanaian languages of instruction and English, and the scale-up to over 7,200 schools in 100 targeted districts. In preparation for the nationwide implementation, *Learning* has developed the Teacher Guide for KG2 and a Teacher Guide and Pupil Book for B2 for the 2017-2018 school year. B2 materials have also been developed for the 2018 – 2019 school year.

We would like to thank the MOE/GES and national and regional language and pedagogical experts who served as validators to ensure the materials are of high quality and have met the standards set by GES for teaching and learning materials for early grade pupils in Ghana. We appreciate the input and guidance provided by the following persons of the MOE/GES: Mrs. Cynthia Bosumtwi-Sam, the Acting Executive Secretary, National Inspectorate Board; Mrs. Felicia Boakye-Yiadom, Acting Executive Secretary, National Council for Curriculum and Assessment; and Dr. Evelyn Oduro, the Acting Executive Secretary, National Teaching Council.

Finally, we thank the *Learning* staff, consultants from FHI360 and Summer Institute of Linguistics (SIL) Africa, as well as Ghana Institute of Linguistics, Literacy and Bible Translation (GILLBT) staff for their expertise in the development and the production of these materials that meet high Ghanaian and international teaching and learning standards. These materials and the trainings in their use will go a long way to support Ghana's goal of improving reading performance and pedagogical excellence in early grade reading in Ghana.

Introduction

The *Learning* Teacher Guides are part of the *Learning* Early Grade Reading Program, a complete reading program for Ghanaian pupils in the early grades. This *Learning* Teacher Guide consists of daily lesson plans with step-by-step instructions on how to deliver the lessons and how to use the additional teaching and learning materials to support learning. Through these lessons, pupils will learn to identify letters, hear and manipulate sounds, and understand and discuss texts in their Ghanaian language of instruction.

The Use of Ghanaian Languages

The languages used in the *Learning* Early Grade Reading Program are the 11- approved Ghanaian languages of instruction. Research shows that it is easier for children to learn to read in a language familiar to them. Children learn to read a second language, such as English, when the concepts of reading and writing have been established in the language that the pupil already speaks.

The *Learning* Teacher Guides have been produced in the 11-approved Ghanaian languages of instruction- Akuapem Twi, Asante Twi, Dagaare, Dagbani, Dangme, Eve, Mfantse, Ga, Gonja, Kasem and Nzema.

Time Allocation

The Language Policy makes provision for the use of Ghanaian language as the medium of instruction from Kindergarten 1 to 2 and Basic 1 to 3, while introducing English gradually until Basic 3. From Basic 4, English becomes the medium of instruction. Accordingly, the *Learning* Early Grade Reading Program materials are designed to be taught for 30 minutes per day and should be implemented during the time slot allocated for local language literacy.

Structure of the Teacher Guide

The KG1 Teacher Guide contains one hundred and seventy lessons and the teaching skills in each lesson are built upon prior lessons. Therefore, it is critical that the lessons are taught in order.

Lesson Content

The weekly lessons are structured as follows:

- These lessons focus on learning letters, writing letters, using new vocabulary, and oral discussion. There are also read alouds with vocabulary and comprehension activities. On the 10th day, there is a summary lesson and time for reinforcement of skills learned.

Instructional Approach

The primary approach used in the *Learning* Teacher Guide is systematic and explicit instruction of reading fundamentals, based on the components of reading instruction plus writing (referred to as the “5 + 1” components). The integration of writing into reading is very important because reading and writing mirror each other (receiving and producing information) and are therefore, best taught together.

Important design features of the *Learning* B2 Teacher Guide include:

- a) **Explicit instruction:** Key concepts are explained directly. To be explicit, we say to pupils what they are learning and why.
- b) **Structured instruction:** Key concepts are explained in a logical order, from simple to complex, and building on pupils’ prior knowledge. For example, building pupils’ word reading skills from sounds, to letters, to syllables, to words and then to sentences.
- c) **Teaching routines:** Activities are repeated regularly across the term. These predictable activities help pupils think about the content instead of focusing on the instructions for new activities.
- d) **Teacher modeling:** The teacher regularly demonstrates reading and writing skills. Modeling for pupils as a whole class, small group, and one-on-one aids pupils’ understanding.
- e) **Pupil independent practice:** To master reading and writing skills, pupils must try out what the teacher has taught many times over with new material. All pupils should have opportunities to practice independently of the teacher each day.
- f) **Differentiation:** Suggestions for differentiation based on pupils’ needs are found throughout the Teacher Guide. In addition, the teacher is encouraged to use available supplementary reading materials to pupils who are ready for an additional challenge. Annex IV contains a list of supplementary reading materials that were provided by *Learning*, and which are appropriate for use during Term 1 of B2.
- g) **Continuous assessment:** To best support pupil learning, the teacher must understand their pupils’ strengths and needs. By regularly assessing pupils’ reading skills each week, the teacher knows which pupils will require extra help during the lessons, which pupils are ready for more challenging content, and which skills the whole class will need to review.

Additional Resources

Activities & Songs in Term 2 includes all the activity instructions and song lyrics you will need for reoccurring activities and songs referenced in the Teacher Guide..

Alphabet Writing Guide serves as a reference for the proper formation of the alphabet for this language. This can be used to inform alphabet writing instruction during the lessons. The teacher should remember that pupils’ writing at this level does not need to look perfect. However, it is important that pupils are taught the proper direction of strokes when writing each of the alphabet

Alphabet and Digraphs Digraphs serve as a reference for the alphabet for this language. The alphabet includes a complete list of the single letters of the language, both small and capital letters. It also includes common digraphs. Digraphs (two letters together) represent a single sound in this language.

A Glossary of Words and Terminologies relating to the language has been provided as a guide for the teacher.

1. Oral Language Development: Community Circle Time

10 mins

Greeting

- Welcome pupils and have them sit in a circle.
- Say: Ti ni pili ti dabisili ni taba puhibu. Ti malila ti nudirigu m-puhiri taba. Sokam kpuximi o nudirigu zuɣusaa.
- Check to make sure every pupil is holding up the right hand.
- Say: Ti yi puhiri ti shikurubihi taba ti kuli lihirila be nina ni ka booni be yuli ka di yirina.
- Turn to the pupil on your right, shake their hand.
- Say: Dasiba, [shikurubila yuli].
- Pupil should respond back saying “Dasiba, karimba.”
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Before school starts, bring in two items related to the theme to show the pupils. Put the items in the center of the circle. If no items are available, draw two pictures on the board instead.
- Say: Bakɔi ɲɔ, ti yeltɔɣikpani nyela “chuyu puhibu.” Binyer’ sheɲa ɲan be bɪŋkpulli ɲɔ sunsuuni kpɪnɪla ti yeltɔɣikpani maa.
- Hold up one of the items from the center of the circle.
- Say: Bɔ n-lee bɔɲɔ?
- Call on a pupil at random to answer.
- Say: Bɔ ka a ni tooi yeli ma zaɲ kpa di polo?
- Call on 2-3 pupils at random to answer. Repeat with the second item.
- Say: Bɔ ka binyer’ sheɲa ɲan doya ɲɔ mali ka di kpini “chuyu puhibu?”
- Give pupils one minute to think, even close their eyes to picture their response. Then choose one of the following options for discussion: call on pupils at random, Turn and Talk (have pupils turn to a pupil next to them), go around the circle and allow every pupil to answer (only if the answer is short), or have pupils take turns acting out answers.
- Encourage pupils to bring in their own items relating to the theme throughout the week.

Activity

- Play: **Bimbilla Payinabila!**

2. Learning Sounds

5 mins

Identify Sounds: What Sound Am I Making?

- Say: N yɛn nam la vuri. Pɔbimi a nina, a yi wum vuri maa ka a kpaŋ a maŋa m-buxisi n ni zan binsheli n-nam vuri maa.
- Pupils close their eyes. Make a sound (example: tap desk with pencil, close the door, slide chair across floor, drop a book on the table). Then call on a pupil at random to describe the sound and guess what was used to make the sound. Call on another pupil if first was incorrect. Continue with another sound.

3. Alphabet

5 mins

Alphabet Song

- Exercise is marching: standing in place the opposite arm swings forward to the raised knee (left arm and right knee together). As pupils march on the spot, give orders: low march (knees raised slightly), normal march (knees raised to half raised), high march (knees raised as high as possible), left turn, right turn, face forward.
- Alternative exercise is the crab walk: (make sure the ground is not dirty so pupils do not soil their clothes) sit on the ground with legs extended out in front, place hands by side with fingers pointed toward feet, lift body up into the air, start moving forward or backwards. Have pupils try for one minute then have them stop and rest for a minute. Then have them try again for another minute.

- Give pupils less than a minute to look, then call on a pupil at random asking for their prediction. Then call on another pupil at random asking for their prediction. If pupils are having difficulty making a prediction, share one of your own.

Vocabulary Review

- On the pages that have a vocabulary word, stop and draw pupil attention to the word.
- Say: Ya ka ti nya ti bachi gahindili “**pari**” anfooni ɲɔ puuni?
- Call on a pupil at random. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer. If pupils have trouble finding the word in the picture, remind them of the meaning of the word.

Greeting

- Welcome pupils and have them sit in a circle.
- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Before school starts, bring in two items related to the theme to show the pupils. Put the items in the center of the circle. If no items are available, draw two pictures on the board instead.

- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Before school starts, bring in two items related to the theme to show the pupils. Put the items in the center of the circle. If no items are available, draw two pictures on the board instead.
- Say: Bakɔi ɔ, ti yɛltɔɣikpani nyɛla “**dabisili kam tuma.**” Binyɛr' shɛɲa ɲan be biɲkpulli ɔ sunsuuni kpini la ti yɛltɔɣikpani maa.

- Call on 2-3 pupils at random to answer. Repeat with the second item.
- Say: Bɔ ka a ba ninɗa biɛyukam? Ma?
- Give pupils one minute to think, even close their eyes to picture their response. Then choose one of the following options for discussion: call on pupils at random, Turn and Talk (have pupils turn to a pupil next to them), go around the circle and allow every pupil to answer (only if the answer is short), or have pupils take turns acting out answers.
- Encourage pupils to bring in their own items relating to the theme throughout the week.

Activity

- Play: **Gabiga yee gabiga!**

2. Learning Sounds

(5 mins)

Identify Sounds: What Sound Does This Make?

- Think of common sounds in the community (animals, baby crying, children laughing, motorcycles, rain falling, etc.). Ask pupils to make the sound, like the following example.
- Say: Vu' bɔ ka nahu yɔra?
- Pupils make the sound. Ask them two more questions about sounds. Then divide the class into groups of 2-4 to think of their own sound. If pupils are having trouble, prompt them to think about places they've been (example: home, church, river, forest).
- Let a few teams take turns asking the rest of the class what sound something makes.

3. Alphabet

- Demonstrate singing and tapping hand for each syllable. Then lead pupils in doing the same. Sing 1-2 more times.
- ASSESSMENT: Have a few pupils tap their hands for each word in the song to be able to assess who is tapping correctly or incorrectly. Monitor which students are able to tap each syllable correctly. If a pupil is having difficulty, stand next to them and help them tap for each syllable while singing. If needed, sing slowly to practice tapping syllables for each word.

Reviewing Letters

- Say: Ti yɛn labimi lihi ti bachikɔba. Pɔi ka ti pili, chɛliya ka ti bii ti nuhi.
- Warm up exercise: have pupils tap their fingers one at a time on their thumb (start with pointer, then middle, then ring, then pinky). Do one hand at a time. As pupils learn the movement, try doing both hands at the same time.
- Write the letters learned this term randomly on the board at the pupils' level. Be sure to write several of each letter, small and capital [**bB, dD, mM, nN, ll, sS, rR, kK, tT, yY**].
- Divide the class into 2-3 groups. Give one pupil a piece of chalk from each group. Tell each pupil a different letter. The pupils are to go and circle the correct letter.
- Continue until all pupils have had a chance to try. Repeat as needed to know what letters the children individually know and do not know. After the response, affirm the correct answer or clarify if it is not the correct answer. Have another pupil from each group have a turn. Continue until all pupils have had a chance to try.
- ASSESSMENT: Monitor which pupils are able to identify the letters and those pupils who have difficulty. Keep track of which letters pupils have difficulty recognizing to adjust further letter recognition activities during the week. If pupils cannot recognize a letter, try to find a way to help them remember it. For example, show the letter card and remind them of the keyword.

Standards

The pupils will be able to:

1. Demonstrate understanding of how to handle a book.
2. Make a prediction based on an illustration of the story.

- Walk around the room for a few minutes. Continue to ask the same questions to small groups of two or three pupils. Ask them to show you their answer using a book.
- ASSESSMENT: For pupils that are struggling, have them hold the book while you demonstrate the proper movements. Monitor and keep track of which pupils understand and those that are struggling handling a book properly.

If not, explain the correct response. Monitor and keep track of pupils having difficulty, and consider how to give them extra support.

Standards

The pupils will be able to:

1. Identify symbol and sound of letters learned.

Assessing Sounds Learned

- Gather the letter cards for the letters learned this term [bB, dD, mM, nN, lL, sS, rR, kK, tT, yY].
- Put the letter cards in different places around the room (example: on the floor, on the wall). Give pupils a minute to walk around the room and look to see where each letter is found.
- Create five teams of pupils. Call a team and say a letter sound. When the pupils in that team hear the sound, they are to run to the letter card that makes that sound. After the team chooses a letter, say the sound again. Ask the other teams if they think the first team is correct. Affirm the correct answer or clarify if it is not the correct answer. Continue with each group having a turn to find the matching letter.
- ASSESSMENT: Keep track of which pupils or teams are having difficulty recognizing specific letters. Also see if there is a specific letter most of the class is struggling with. If this happens, stop and review the letter before continuing with the game.

Example: In the story, Fati was outside collecting firewood and saw a red bird. One time I was outside walking and saw a red bird.
- ASSESSMENT: Be sure to ask different pupils throughout the week. If a pupil is struggling, ask them prompting questions, such as: Have you ever [insert event from story]? Monitor and keep track of how well the pupils are able to make connections that make sense and relate to the story.

2. Comprehension: During Reading

(5 mins)

Read Aloud

- Read aloud the story.

(10 mins)

Factual Question: Review All

- Before the lesson, prepare cards with the following words (one word per card): **Ŋuni? Bɔ? Ya? Bɔ saha?**
- Call on a pupil at random to come take a card from you. Read the corresponding factual question aloud and have the pupil answer.
 - WHO: Ŋuni n-daa kari wahu maa bahi? (Answer: Fati ba.)
 - WHAT: Bɔ ka Fati ba daa niŋ wahu maa? (Answer: O daa zaŋla dayu n-kari doli o.)

 - WHEN: Bɔ saha ka lahibali maa daa niŋ dabisili puuni? (Possible answers: Asiba, wuntaŋa ni.)
- After each response, ask the pupil why they gave that answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer. Continue through all questions.
- ASSESSMENT: Be sure to ask different pupils each day to answer questions. If a pupil is not able to answer, reread the part of the story that has the answer. See if the pupil can respond correctly. If not, explain the correct response. Monitor and keep track of pupils having difficulty, and consider how to give them extra support.

4. Comprehension: After Reading

(10 mins)

Making Connections

- Read the title of the story again and show the illustration.
- Say: Bɔ ka lahibali ŋɔ teegi a a biɛhigu ni? Pɔbimi a nina ka tɛhi n-nya a mini lahibali maa ni mali binsheli ka di kpini taba.
- Turn and Talk: Have pupils turn to the pupil next to them to talk about their connection with the story. Walk around and listen to what pupils are saying.
- After two minutes, gather pupils back as a group. Choose a good example of a connection you heard from a pupil, and share it with the class.
- Then call on one pair of pupils at random to share their connections.
- ASSESSMENT: Be sure to ask different pupils throughout the week. Remember to ask prompting questions if a pupil is struggling.

Standards

The pupils will be able to:

1. Identify symbol and sound of letters learned.
2. Blend syllables into a word.
3. Identify letters by drawing triangles around the symbols.
4. Participate in conversations with peers and adults.

1. Oral Language Development: Community Circle Time

(10 mins)

Greeting

- Welcome pupils and have them sit in a circle.
- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Say: Bakɔi nɔ, ti yɛn dila alizama zaŋ kpa din be ti suhu ni. Di nyɛla din be ti nii, kamani ninyambo. A nii na min nyam?
- Have pupils raise their hand in response.
- Say: Bɔ saha ka a nii min nyam? Bɔ n-daa lee nyam a nii?
- Give pupils a moment to think, even close their eyes to picture their response. Then do Turn and Talk: Have pupils turn to the pupil next to them to talk about a time they were excited. Walk around and listen to what pupils are saying.
- After one minute, gather pupils back as a group. Choose one pupil, and have them share with the class.

Activity

- Play: **Nolɔyɔ, nolɔyɔ kumda!**

2. Learning Sounds

(10 mins)

Blend Syllables

- Teach the following song: **N daa yee! N daa yee!**
- Sing the song two times using different words. Use words that the pupils are familiar with and can easily put the syllables together.
- ASSESSMENT: Have a few pupils sing the song at a time. Monitor which students are able to blend syllables together correctly. If a pupil is having difficulty, stand next to them and help them try clapping the syllables, or sing the song slowly to help the pupil hear the syllables.

Reviewing Letters

- Say: Ti yɛn labimi lihi ti bachikɔba. Pɔi ka ti pili, cheliya ka ti bii ti nuhi.
- Warm up exercise: have pupils tap their fingers one at a time on their thumb (start with pointer, then middle, then ring, then pinky). Do one hand at a time. As pupils learn the movement, try doing both hands at the same time.
- Write the letters learned this term randomly on the board at the pupils' level. Be sure to write several of each letter, small and capital [**bB, dD, mM, nN, lL, sS, rR, kK, tT, yY**]. Based on previous activities, focus on the letters that you have identified the pupils are having difficulty with.
- Divide the class into 2-3 groups. Give one pupil a piece of chalk from each group. Tell each pupil a different letter. The pupils are to go and put a triangle around the correct letter.
- Continue until all pupils have had a chance to try. Repeat as needed to know what letters the children individually know and do not know. After the response, affirm the correct answer or clarify if it is not the correct answer. Have another pupil from each group have a turn. Continue until all pupils have had a chance to try as many letters as possible in the time given.
- Option: If the class is doing well, you could have two pupils go at the same time to see who can find the correct letter first. Another option: instead of saying the letter, show the keyword from the letter card and the pupils have to find the corresponding letter on the board.
- ASSESSMENT: Monitor which pupils are able to identify the letters and those pupils who have difficulty. Continue to track of which letters pupils have difficulty recognizing to adjust further letter recognition activities during the week. If pupils cannot recognize a letter, try to find a way to help them remember it. For example, show the letter card and remind them of the keyword.

Standards

The pupils will be able to:

1. Answer the factual questions (who, what, where, when) of the story.
2. Act out parts of the story.
3. Adequately express oneself verbally and nonverbally.

2. Reason to Read

(12 mins)

Learn New Print Concepts

- Find a children's storybook with an author and illustrator.
- Think about how books and stories have different parts.
- Say: Ti yi karinda, lahibali kam malila binyer' sheŋa di ni mali. Lahibali kam malila nun sabi li.
- Point to the author's name on the storybook.
- Say: Ŋun su lahibali maa n-nyɛ ninvuy' so nun sabi li. Ŋuni n-su lahibali?
- Give pupils a moment to think, then call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer by repeating, "the author is the person who wrote the story."
- Say: Lahibali kam din mali anfooninima malila nun nam anfooni maa.
- Point to the illustrator's name on the storybook.
- Say: Anfooninamda nyɛla nun nam anfooni. Ŋuni n-lee nyɛ anfooninamda?
- Give pupils a moment to think, then call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer by repeating, "the illustrator is the person who drew the pictures."
- Say: Lahibali kam malila yuli.
- Point to the title on the storybook.
- Say: Lahibali yuli nyɛla be ni booni lahibali shɛm. Bo n-lee nyɛ lahibali yuli?
- Give pupils a moment to think, then call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer by repeating, "the title is what the story is called."
- Say: Ti yi karinda, ti karindila bachi yini yini saha yini. Lahibali mali bachinima pam ka ti karindi yini yini gbambiɛlli zuɣu.
- Write the following sentence on the board: O tiri niriba nyuya.
- Call on a pupil at random to come and point to each word of the sentence as you read aloud.

3. Comprehension Check

(8 mins)

Inferential Question: Skill Practice

- Inferential Question: Skill Practice
- Read the title of the first story, pointing to each word, and show the illustration.
- Say: N yɛn tin ya la binshɛŋa ŋan ni soŋ salinli maa puuni. Ti yi zaŋ anfooni mini ti ni teeri binshɛŋa ŋan jendi salinli maa n-tum tuma, kpaŋmiya yi maŋa m-buyisi baŋ n ni buyisiri binshɛli maa.
- Choose a character, animal, or object from the story that is also in the illustration. Give three clues for pupils to try and guess.
- Call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and call on another pupil if incorrect.
- Repeat two more times. A different illustration from the story can be chosen if needed.

Annex I: Techniques for Teaching *Learning* Lessons

I do | We do | You do

This is a process to slowly shift from the teacher demonstrating a new skill or concept, to the pupil doing it on their own.

- **I DO:** The teacher models or demonstrates, and explains what they are doing.
- **WE DO:** The teacher and pupils practice the skill or task together, once or several times.
- **YOU DO:** Pupils try it alone, with many opportunities to practice with the same and new material.

Turn and Talk

Using this technique, a teacher would give pupils a task, then ask them to turn and talk to another pupil sitting next to them. Usually, pupils must do this quickly, then turn back to the teacher. Using this teaching technique, teachers can get all the pupils in the class to actively think about and discuss the response to a question, or practice a skill. For example, if asking a comprehension question, the teacher has all pupils turn and talk quickly with the person next to them about their response to the question. By doing this, all the pupils are expected to pay attention, to think about what is being asked, and to be ready with a response. Also, it provides a way to do continuous assessment – to assess, just walk around and listen to what the pupils are saying or doing. Finally, pupils who don't speak the Ghanaian Language of Instruction can use this time to think and talk in their language, before giving a response in the Language of Instruction. Note: You must be ready to let your room get a little noisy, and be sure to have a consistent signal for pupils to start and stop the Turn and Talk activity so you can use it quickly and then move on with the lesson.

Calling on pupils “at random”

Calling on pupils at random, instead of calling on pupils to volunteer, accomplishes two things. First, it helps pupils understand that they should always be ready to share their thoughts. They should be actively listening to the teacher all the time, and thinking about the activities and discussions. Second, it gives the teacher insight into what pupils are understanding and why they may not be interested in responding. By including both the brightest pupils and pupils who need more explanation or demonstration to understand the lesson, helps the teacher reach all pupils.

Whole class response

Activities that call for the whole class to respond in unison are a way for the teacher to monitor who has understood, and who has not understood. It helps the teacher know which pupils need more support and gives the teacher a chance to pause the lesson and give feedback to individuals or groups of pupils who are not following along. For whole class response to be effective, pupils must respond all together, immediately. For example, if they are to put up two fingers to say “yes” and one to say “no”, then they must do this as soon as the teacher signals (gives them a cue) for them to respond. Note that pupils may need a bit of time to think before responding, so the teacher may wait before giving the signal. But if some pupils are permitted to respond before others, the slower pupils may simply copy the classmates who respond first. So be sure to give them a signal, and encourage them to respond right away!

In this document, the meaning of L1 is the language the child speaks most comfortably, and the L2 refers to any language that is not their L1. Because the Learning Early Grade Reading Program is focused on teaching reading and writing, these techniques are mainly for teachers who are in a situation where they have a few, or many, pupils whose L1 is not the official Ghanaian Language of Instruction of the school they are in. So, these pupils are learning to read and write in their L2 (a Ghanaian language, but a less familiar one). However, these techniques could also be applied to learning to read in another L2, such as English.

1. Create links to personal experience and background knowledge

Why? L2 learners benefit from understanding the context of new materials. Relating the new material to their experiences and background knowledge provides meaningful context.

How? When introducing a topic, ask pupils what they know about it. Have they ever seen, used, or done this thing? When? Turn and talk works well for this type of strategy. Pupils can first think about what they already know, then turn to a partner to talk about it. After that, a few pupils can share with the whole class.

2. Encourage pupils to use their home language (L1)

Why? Using the more familiar language (L1) to learn a less familiar language (L2) can help pupils clarify their understandings of classroom conversation and text, confirm and expand their understanding of the content, prepare to carry out a task in the L2, and talk about how their language works. It can also save time by allowing for the occasional quick translation, rather than undergoing a long attempt at explanation in the L2. Additionally, it can give pupils a sense of security when much of what is happening in the classroom is new.

How? Using L1 in the classroom needs to be done carefully with intentional planning. Regular code switching (changing back and forth) from L2 to L1 without a planned strategy may result in linguistic confusion. To avoid confusion and save time when explaining new vocabulary, systematically ask pupils as part of the instructional routine, “How would you say this in your language?” Likewise, after reading a story, ask pupils to retell the story in their own language. A rule of thumb for deciding on the use of L1 is to consider if the pupils’ understanding of the content is important or how to express a message in the L2. For example, when pupils share their prior experience with a new word or concept, using L1 can be helpful because what is important is to connect to their experiences, not how to express that in the L2. Similarly, when pupils are preparing a partner or group task, they may be invited to use the L1 but reminded that the ultimate product (such as a verbal or written response) should be in the L2. This encourages deeper thinking about the topic and allows for discussion in the L1 about the L2 as pupils prepare their work.

3. Practice and play with the sounds of the target language

Why? After vocabulary, phonological awareness is one of the most important skills for L2 readers to develop. Even if sounds are similar in the L1 and L2, pupils who are new to the L2 will need to develop their capacity to hear those same sounds in a new linguistic context. The first skills to develop are more general phonological awareness skills, such as identifying individual words in a spoken sentence and identifying rhyme. Finer skills such as identifying syllables and phonemes (individual sounds) and being able to substitute or delete syllables or phonemes are developed later.

How? Teachers can make a habit of integrating some phonological awareness work into lesson plans whenever they are introducing new words and phrases, and returning to phonological awareness work if pupils are struggling to read certain passages or spell certain words. Techniques include representing spoken words with pebbles or bottle caps, clapping the syllables in a new vocabulary word, and finding words pupils already know that rhyme or contain a similar sound to a new word.

4. Enhance meaning with pictures, objects, and actions

Why? L2 learners need to interact with a new word or idea many times and in many ways to fully learn the meaning. Using pictures, objects, and actions can help provide visual, tactile, and kinesthetic reinforcement to any verbal explanation that may be given for a new word.

How? It does not matter if you do not have fancy, prepared flash cards and posters. Teachers can draw simple stick figures and line drawings on the board (or ask pupils to do it). The teacher and the pupils can use actions to demonstrate individual words and concepts, or can use role play to dramatize stories they have read. Many everyday objects are portable enough for teachers to bring to school to use for demonstrations (e.g., dishes, clothing, cooking tools, parts of plants, etc.). Keep clippings of images from newspapers and magazines as small treasures to share and discuss on the right occasion. Parents' committees can also help collect empty containers that can be used in class for demonstration and vocabulary practice (e.g., old containers for different foods and drinks, empty medicine packets, labels of various products, etc.).

5. Give pupils time to process and test out ideas, either by speaking in their first or in their new language, with a partner or small group

Why? In an L2 classroom, it is important to have learners feel secure so that they can take risks and participate fully. They will feel more secure if they have time to practice using their L2 and answering the question before having to say it in front of the whole class. While this cannot be used for every question in every class, it is important to remember to do this several times each lesson so that the pupils who tend to take longer to prepare an answer and who do not frequently raise their hands have more opportunity to participate in a non-threatening way.

How? Pupils may be asked to jot down their idea on a slate or in their notebooks, or to think quietly and then participate in a turn and talk. Another way to encourage participation from even the quietest pupils is to ask a whole-class question that has two or more possible answers and all pupils answer at once. For example, a teacher might say, "In the story today, would you describe the main character as brave or foolish? Raise your fist if you think she was brave and raise one finger if you think she was foolish."
