Foreword

The Ministry of Education/Ghana Education Service (MOE/GES) would like to thank the United States Agency for International Development (USAID) Partnership for Education: *Learning* for helping the Government of Ghana to improve the quality of early grade reading instruction in public basic schools. *Learning* supports the MOE/GES to improve learning outcomes in reading for pupils in KG2, B1, and B2 through a systematic phonics-based approach. This is achieved by developing and training teachers in the use of teaching and learning materials for reading instruction in 11 Ghanaian languages (GL) and oral English.

The reading program supported by *Learning* focuses on the teaching of the six most important components of reading instruction: phonological awareness, phonics (letter-sounds), fluency, vocabulary, comprehension and writing. The reading program is framed in the “simple view of reading,” which teaches pupils the skills needed to decode and to comprehend written words in order to become independent readers.

The reading program includes daily lessons with step-by-step instructions in a Teacher Guide, accompanied by a Pupil Book for each pupil in the classroom that contains pictures and texts that support the lessons. The Teacher Guide provides guidance on how to use the Pupil Book and other learning materials effectively to deliver engaging and effective reading lessons. The lessons are designed to be taught in 30-minute blocks, from Monday to Friday.

The Dagbani Prototype

The reading program has been prototyped in the Dagbani language as a precursor to the larger reading program in all 11 Ghanaian languages. The Teacher Guide and the Pupil Book developed for the Dagbani Prototype for B1, Terms 1 & 2 were piloted from January – July 2017 in 20 schools in the Yendi Municipal. Teachers, Headteachers, Curriculum Leads, Circuit Supervisors and Language Specialists from the Yendi Municipal were trained to strengthen their various roles to improve reading performance. This included trainings in reading pedagogy, classroom management, pupil assessment, and monitoring and supervision. *Learning* conducted base-line and mid-line assessment to track progress; and an end-line assessment will be conducted to find out how well the prototype has impacted the reading performance of the pupils. The mid-line results indicate that pupils who could read a syllable in Dagbani increased by 31% and pupils who could read a word in a decodable text increased by 26% after 8 weeks of prototype lessons.

We would like to particularly thank the Northern Regional Director of Education, the Municipal Director of Education and staff, teachers and pupils of the Yendi Municipal Assembly who have worked hard to ensure that the prototype reading program is successful.

Scale-up to the 11 Ghanaian Languages of Instruction

The prototype program was tested and refined; and the lessons learned during prototyping were fed directly into the development of teaching and learning materials for all 11 Ghanaian languages of instruction and English, and the scale-up to over 7,200 schools in 100 targeted districts. In preparation for the nationwide implementation, *Learning* has developed the Teacher Guide for KG2 and a Teacher Guide and Pupil Book for B1 for the 2017-2018 school year. B2 materials have also been developed for the 2018 – 2019 school year.

We would like to thank the MOE/GES and national and regional language and pedagogical experts who served as validators to ensure the materials are of high quality and have met the standards set by GES for teaching and learning materials for early grade pupils in Ghana. We appreciate the input and guidance provided by the following persons of the MOE/GES: Mrs. Cynthia Bosumtwi-Sam, the Acting Executive Secretary, National Inspectorate Board; Mrs. Felicia Boakye-Yiadom, Acting Executive Secretary, National Council for Curriculum and Assessment; and Dr. Evelyn Oduro, the Acting Executive Secretary, National Teaching Council.

Finally, we thank the *Learning* staff, consultants from FHI360 and Summer Institute of Linguistics (SIL) Africa, as well as Ghana Institute of Linguistics, Literacy and Bible Translation (GILLBT) staff for their expertise in the development and the production of these materials that meet high Ghanaian and international teaching and learning standards. These materials and the trainings in their use will go a long way to support Ghana's goal of improving reading performance and pedagogical excellence in early grade reading in Ghana.

Introduction

The *Learning* Teacher Guides are part of the *Learning* Early Grade Reading Program, a complete reading program for Ghanaian pupils in the early grades. This *Learning* Teacher Guide consists of daily lesson plans with step-by-step instructions on how to deliver the lessons and how to use the additional teaching and learning materials to support learning. Through these lessons, pupils will learn to identify letters, hear and manipulate sounds, and understand and discuss texts in their Ghanaian language of instruction.

The Use of Ghanaian Languages

The languages used in the *Learning* Early Grade Reading Program are the 11- approved Ghanaian languages of instruction. Research shows that it is easier for children to learn to read in a language familiar to them. Children learn to read a second language, such as English, when the concepts of reading and writing have been established in the language that the pupil already speaks. The *Learning* Teacher Guides have been produced in the 11-approved Ghanaian languages of instruction- Akuapem Twi, Asante Twi, Dagaare, Dagbani, Dangme, Eve, Mfantse, Ga, Gonja, Kasem and Nzema.

Time Allocation

The Language Policy makes provision for the use of Ghanaian language as the medium of instruction from Kindergarten 1 to 2 and Basic 1 to 3, while introducing English gradually until Basic 3. From Basic 4, English becomes the medium of instruction. Accordingly, the *Learning* Early Grade Reading Program materials are designed to be taught for 30 minutes per day and should be implemented during the time slot allocated for local language literacy.

Structure of the Teacher Guide

The KG2 Teacher Guide contains one hundred and fifty lessons and the teaching skills in each lesson are built upon prior lessons. Therefore, it is critical that the lessons are taught in order.

Lesson Content

The weekly lessons are structured as follows:

- These lessons focus on learning letters, writing letters, using new vocabulary, and oral discussion. There are also read alouds with vocabulary and comprehension activities. On the 10th day, there is a summary lesson and time for reinforcement of skills learned.

Instructional Approach

The primary approach used in the *Learning* Teacher Guide is systematic and explicit instruction of reading fundamentals, based on the components of reading instruction plus writing (referred to as the “5 + 1” components). The integration of writing into reading is very important because reading and writing mirror each other (receiving and producing information) and are therefore, best taught together.

Important design features of the *Learning* B2 Teacher Guide include:

- a) **Explicit instruction:** Key concepts are explained directly. To be explicit, we say to pupils what they are learning and why.
- b) **Structured instruction:** Key concepts are explained in a logical order, from simple to complex, and building on pupils’ prior knowledge. For example, building pupils’ word reading skills from sounds, to letters, to syllables, to words and then to sentences.
- c) **Teaching routines:** Activities are repeated regularly across the term. These predictable activities help pupils think about the content instead of focusing on the instructions for new activities.
- d) **Teacher modeling:** The teacher regularly demonstrates reading and writing skills. Modeling for pupils as a whole class, small group, and one-on-one aids pupils’ understanding.
- e) **Pupil independent practice:** To master reading and writing skills, pupils must try out what the teacher has taught many times over with new material. All pupils should have opportunities to practice independently of the teacher each day.
- f) **Differentiation:** Suggestions for differentiation based on pupils’ needs are found throughout the Teacher Guide. In addition, the teacher is encouraged to use available supplementary reading materials to pupils who are ready for an additional challenge. Annex IV contains a list of supplementary reading materials that were provided by *Learning*, and which are appropriate for use during Term 1 of B2.
- g) **Continuous assessment:** To best support pupil learning, the teacher must understand their pupils’ strengths and needs. By regularly assessing pupils’ reading skills each week, the teacher knows which pupils will require extra help during the lessons, which pupils are ready for more challenging content, and which skills the whole class will need to review.

Additional Resources

Activities & Songs in Term 2 includes all the activity instructions and song lyrics you will need for reoccurring activities and songs referenced in the Teacher Guide..

Alphabet Writing Guide serves as a reference for the proper formation of the alphabet for this language. This can be used to inform alphabet writing instruction during the lessons. The teacher should remember that pupils’ writing at this level does not need to look perfect. However, it is important that pupils are taught the proper direction of strokes when writing each of the alphabet

Alphabet and Digraphs Digraphs serve as a reference for the alphabet for this language. The alphabet includes a complete list of the single letters of the language, both small and capital letters. It also includes common digraphs. Digraphs (two letters together) represent a single sound in this language.

A Glossary of Words and Terminologies relating to the language has been provided as a guide for the teacher.

If not, explain the correct response. Monitor and keep track of pupils having difficulty, and consider how to give them extra support.

3. Reading Response

(20 mins)

Personal Opinions

- Read the title of the story and show the illustration again.
- Say: Bɔ ka yi yu zaŋ kpa lahibali ŋɔ polo?
- Turn and Talk: Have pupils turn to the pupil next to them to talk about their connection with the story. Walk around and listen to what pupils are saying.
- After two minutes, gather pupils back as a group. Choose a good example you heard from a pupil, and have the pupil share it with the class.

Acting it Out

- Read the title of the story and show the illustration again.
- Say: Bɔ ka yi yu zaŋ kpa lahibali ŋɔ polo?
- Say: Pumpɔŋɔ n yɛn labimi karim lahibali maa zaa. Amaa n yi karinda, ti yɛn kperiti la lahibali maa ka tiri taba.
- Before reading each paragraph of the story, choose pupils at random to act out the actions of the characters as you read. Stop from time to time, and choose different pupils. Another option: Assign a character to 1-2 rows or tables of pupils, so all pupils have a part to act out.

1. Oral Language Development: Community Circle Time

(10 mins)

Greeting

- Welcome pupils and have them sit in a circle.
- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Say: Bakɔi nɔ ti yɛn zanla ti tɛha n-tum tuma. A yi di mali yiko shɛli, kamani payili, wula ka di di yɛn be? Bɔ zuɣu?
- Give pupils a moment to think, even close their eyes to picture their response. Then do Turn and Talk: Have pupils turn to the pupil next to them. Walk around and listen to what pupils are saying.
- After one minute, gather pupils back as a group. Choose one pupil, and have them share with the class.

Activity

- Play: **Saa!!**

2. Learning Sounds

(5 mins)

Sound Matching Game

- Write the following letters on the board: **g - p - e - ʒ - ɣ - ε - w - ŋ**
- The letters should be large enough for all pupils to see. Make sure they are evenly spaced out in a line that is eye level for the pupils. After writing each letter:
- Say: Bachikɔb' bɔ n-lee bɔnɔ? Di vuri nyɛla wula?
- Call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.
- Put the pupils into pairs and give each pair a letter card (use only the letters that have been learned so far). Have the pairs sit in a line facing the board.
- Say: N yi boli vuri, a yi mali takarigban shɛli din mali bachikɔb' shɛli din mini li vuri lu n-doli taba, a mini a kpee yin yiyimiya chan nti zani lala bachikɔb' shɛli din mini li vuri lu n-zahim dukpunsabirili maa zuɣu.
- When pupils go to the board with their letter card, affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.

- Go through the letters that have been learned. Assist pupils as needed if they are having difficulty connecting the sound said with their letter card.
- As time permits, switch up the letter cards between the pairs of pupils.
- NOTE: Keep track of which pupils are having difficulty recognizing specific letters. Also see if there is a specific letter most of the class is struggling with. If this happens, stop and review the letter before continuing with the game.

3. Alphabet

(8 mins)

Name Card #2

- Put all of the pupils' name cards on the floor or table.
- Say: N yi yeli a ni a yimina tooni, nyin yuli bo a yuli shee. A yi bo n-nya li, kpuyimi a takarigban maa n-zan na n sani.
- Have pupils come up 2-3 at a time. When they bring you their card, point to their name and as they say it move your finger along the letters. Then have the pupil clap the syllables in their name.
- NOTE: Monitor which pupils are able to identify their name and clap the syllables, and those pupils who have difficulty. If pupils don't recognize their name, try to find a way to help them remember it. For example, write it in large print on their notebook or a piece of spare paper. Ask them to take it home and trace the letters with their finger a few times. If pupils have difficulty clapping the syllables in their name, clap with them as you slowly say their name.

4. Writing

(7 mins)

Reviewing Names

- Say: Ti yen labimi lihi ti yuya sabbu. Poi ka ti pili, cheliya ka ti dahim ti nuhi.

- Give each pupil their individual name card.
- NOTE: Have pupils write their name on their paper. If pupils cannot complete their name, try to find a way to help them. For example, write the letters and have them trace. Another option: see if pupils are able to write their name without looking at their name card.

The pupils will be able to:

1. Demonstrate understanding of the components of a story.
2. Make visualizations based on the events of the story.
3. Make a prediction based on the read aloud.
4. Answer factual and inferential questions of the story.
5. Adequately express oneself verbally and nonverbally.

- Have pupils follow the motion from left to right.
- Walk around the room for a few minutes.
- Continue to ask the same question to small groups of two or three pupils. Ask them to show you their answer using the book. Have the other pupils tap their desk from left to right.
- NOTE: For pupils that are struggling, have them hold the book while you demonstrate pointing to words one at a time as you read. Monitor and keep track of which pupils understand and those that are struggling handling a book properly.

(10 mins)

Syllable Review

- Gather the letter cards for the letters that have been learned: **g - p - e - ʒ - ɣ - ε - w - ŋ**
- Say: Ti yɛn labimi lihi bachijila. Teemiya, bachijila nyɛla bachi puuni yaɣa.
- Hold up one of the letter cards showing the keyword. Say the keyword slowly, clapping each syllable.

Assessing Sounds Learned in Term 2

- Gather the letter cards for the letters learned this term: **g - p - e - ɜ - ʒ - ε - w - ŋ**
- Put the letter cards in different places around the room (example: on the floor, on the wall). Give pupils a minute to walk around the room and look to see where each letter is found.
- Create five teams of pupils. Call a team and say a letter sound. When the pupils in that team hear the sound, they are to run to the letter card that makes that sound. After the team runs to a letter, say the sound again. Ask the other teams if they think the first team is correct. Affirm the correct answer or clarify if it is not the correct answer. Continue with each group having a turn to find the matching letter.
- NOTE: Keep track of which pupils or teams are having difficulty recognizing specific letters. Also see if there is a specific letter most of the class is struggling with. If this happens, stop and review the letter before continuing with the game.

2. Learning Sounds

(5 mins)

Sound Matching Game

- Write the following letters on the board: **g - p - e - z - x - w - η**
- The letters should be large enough for all pupils to see. Make sure they are evenly spaced out in a line that is eye level for the pupils. After writing each letter:
- Say: Bachikɔb' bɔ n-lee bɔɔ? Di vuri nyɛla wula?
- Call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.
- Put the pupils into pairs and give each pair a letter card (use only the letters that have been learned so far). Have the pairs sit in a line facing the board.
- Say: N yi boli vuri, a yi mali takarigban sheli din mali bachikɔb' sheli din mini li vuri lu n-doli taba, a mini a kpee yin yigimiya chan nti zani lala bachikɔb' sheli din mini li vuri lu n-zahim dukpunsabirili maa zuɣu.
- When pupils go to the board with their letter card, affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.
- Go through the letters that have been learned. Assist pupils as needed if they are having difficulty connecting the sound said with their letter card.
- As time permits, switch up the letter cards between the pairs of pupils.
- NOTE: Keep track of which pupils are having difficulty recognizing specific letters. Also see if there is a specific letter most of the class is struggling with. If this happens, stop and review the letter before continuing with the game.

3. Writing

(10 mins)

Reviewing Names

- Say: Ti yɛn labimi lihi ti yuya sabbu. Pɔi ka ti pili, chɛliya ka ti dahim ti nuhi.

- Give each pupil their individual name card.
- NOTE: Have pupils write their name on their paper. If pupils cannot complete their name, try to find a way to help them. For example, write the letters and have them trace. Another option: see if pupils are able to write their name without looking at their name card.

4. Alphabet

(5 mins)

Name Card #2

- Put all of the pupils' name cards on the floor or table.
- Say: N yi yɛli a ni a yimina tooni, nyin yuli bo a yuli shee. A yi bo n-nya li, kpuximi a takarigban maa n-zan na n sani.
- Have pupils come up 2-3 at a time. When they bring you their card, point to their name and as they say it move your finger along the letters. Then have the pupil clap the syllables in their name.

- NOTE: Monitor which pupils are able to identify their name and clap the syllables, and those pupils who have difficulty. If pupils don't recognize their name, try to find a way to help them remember it. For example, write it in large print on their notebook or a piece of spare paper. Ask them to take it home and trace the letters with their finger a few times. If pupils have difficulty clapping the syllables in their name, clap with them as you slowly say their name.

(10 mins)

Greeting

- Welcome pupils and have them sit in a circle.
- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Before school starts, bring in two items related to the theme to show the pupils. Put the items in the center of the circle. If no items are available, draw two pictures on the board instead.
- Say: Bakɔi ɲɔ yeltɔɣikpani nyela “maasim mini tulim.” Binyer’ sheɲa ɲan be binkpulli ɲɔ sunsuuni kpinila ti yeltɔɣikpani maa.
- Hold up one of the items from the center of the circle.
- Say: Bɔ n-lee bɔɲɔ?
- Call on a pupil at random to answer.
- Say: Bɔ ka yi ni tooi yeli ma zaɲ kpa di polo?
- Call on 2-3 pupils at random to answer. Repeat with the second item.
- Say: Wula ka nɛma ɲɔ mini “maasim mini tulim” kpini taba?
- Give pupils one minute to think. You may suggest they close their eyes to picture their response. Then choose one of the following options for discussion: call on 3 pupils at random.
- Turn and Talk (have pupils turn to a pupil next to them), go around the circle and allow every pupil to answer (only if the answer is short), or have pupils take turns acting out answers.
- Encourage pupils to bring in their own items relating to the theme throughout the week.

Activity

- Play: **N dana! N dana!**

2. Learning Sounds

(5 mins)

- Repeat: **da.../ri/...dari**
- Have pupils respond with the new word. If they are having difficulty, repeat the sound several times and the base word again to help them hear the new word.
- Continue adding a new sound or syllable to the same base word:

Base Word	Ending Sounds
da	a, ri, yu, ŋ, m, am

Continue with additional letters until all pupils have had a chance to try.

Factual & Inferential Question: Review All

- Before the lesson, gather cards with the following question words (one word per card): **Bɔ zuɣu? A tɛhi ni? Bɔ? Ya polo?**
- Call on a pupil at random to come take a card from you. Read the corresponding factual question aloud and have the pupil answer.
 - WHERE: Ya polo ka Naasanjerigu mini Kpakpuli daa chaŋ? (Answer: Machele nyabu.)
 - WHY: Bɔ zuɣu ka bɛ tɛhi ni Machele maa ni tooi sɔŋ ba? (Answer : O maani binyera ka di sɔŋdi niriba.)
 - DO YOU THINK: A tɛhi ni Machele maa nyɛla ŋun deerɪ niriba? (Possible answers: O ti ba kuɣu; o mini ba ziniya; o ti ba kom.)
 - DO YOU THINK: A tɛhi ni Machele maa nyɛla ŋun ni tooi sɔŋ ba? (Possible answers: O maani binyera pam ka di sɔŋdi niriba; o sɔŋdi niriba dinzuɣu o ni tooi sɔŋ ba.)
 - WHAT: Bɔ ka a tɛhi ni o ni maali n-ti ba? (Possible answer: Wɔɣu ni bɛ zaŋ pɔbi bɛ yaansi.)
- After each response, ask the pupil why they gave that answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer. Continue through all questions.
- NOTE: Be sure to ask different pupils each day to answer questions. If a pupil is not able to answer, reread the part of the story that has the answer. See if the pupil can respond correctly. If not, explain the correct response. Monitor and keep track of pupils having difficulty, and consider how to give them extra support.

Standards

The pupils will be able to:

1. Identify symbol and sound of letters learned.
2. Continue to recognize and create rhyming words.
3. Participate in conversations with peers and adults.

1. Oral Language Development: Community Circle Time

(10 mins)

Greeting

- Welcome pupils and have them sit in a circle.
- Follow the normal greeting routine.
- Have the pupil that was just greeted, turn to the pupil on their right and greet them. This continues all the way around the circle.

Theme Discussion

- Say: Zuɔ ti yɛn labimi lihi binshɛɲa ti ni pun bɔhim. Tuuli, chɛliya ka ti di alizama jɛndi ti biɛhigu! Bɔ bee ɲuni n-che ka a nyari yurilim? Bɔ zuɣu?
- Give pupils a moment to think, even close their eyes to picture their response. Then do Turn and Talk: Have pupils turn to the pupil next to them. Walk around and listen to what pupils are saying.
- After one minute, gather pupils back as a group. Choose one pupil, and have them share with the class.

Activity

- Play: **N dana! N dana!**

2. Learning Sounds

(7 mins)

Rhyming Keywords

- Hold up the letter card for “f” and show the keyword.
- Say: Bachi gahindili ɲɔ n-lee nyɛ dini?
- Have the whole class answer.
- Say: Chɛliya ka ti kpahi ti nuhi n-doli bachijil’ shɛɲa ɲan be bachi maa puuni!
- Clap the syllables together twice.
- Say: ɲuni n-ni tooi tɛhi bachi shɛli din mini bachi maa bahigu vuri lu n-doli taba “firgima?”
- Call on a pupil at random to answer. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.
- Ask 2-3 more pupils if they can think of another rhyming word.
- NOTE: Go through several letters as time permits. Assist as needed if pupils are having difficulty clapping the syllables in the keyword or thinking of a rhyming word.

3. Letter of the Week

(8 mins)

Assessing Sounds Learned in Term 3

- Gather the letter cards for the letters learned this term: **h - f - c - v - z - j - ny - ie**
- Put the letter cards in different places around the room (example: on the floor, on the wall). Give pupils a minute to walk around the room and look to see where each letter is found.
- Create five teams of pupils. Call a team and say a letter sound. When the pupils in that team hear the sound, they are to run to the letter card that makes that sound. After the team runs to a letter, say the sound again. Ask the other teams if they think the first team is correct. Affirm the correct answer or clarify if it is not the correct answer. Continue with each group having a turn to find the matching letter.
- NOTE: Keep track of which pupils or teams are having difficulty recognizing specific letters. Also see if there is a specific letter most of the class is struggling with. If this happens, stop and review the letter before continuing with the game.

4. Alphabet

(5 mins)

Alphabet Song

- Say: Ti yen tuximi n-yili yilli n-zan bachikabili maa tum tuma ti yilli maa yilibu ni.
- Sing the alphabet song/chant: **Jangbuni nya simli ka lara!**

- Help the pupils to get together in the correct order. When they are done, read the sentence aloud as a class.
- NOTE: Be sure to go through each of the sight words throughout the week. Also, be sure to call on different pupils throughout the week. If a pupil is struggling, ask another pupil to help. Monitor and keep track of how well the pupils are able to recognize the sight words.

2. Comprehension: During Reading

- Call on a pupil at random to give their prediction. After the answer, ask why they made the prediction. Call on another pupil to give their answer.
- NOTE: Be sure to ask different pupils throughout the week. If a pupil is struggling, ask them prompting questions, such as: What happened in the story? What could the character do next? Monitor and keep track of how well the pupils are able to make predictions that make sense and relate to the story.

- Turn and Talk: Have pupils turn to the pupil next to them to talk about their connection with the story. Walk around and listen to what pupils are saying.
- After two minutes, gather pupils back as a group. Choose a good example of a connection you heard from a pupil, and share it with the class.
- Then call on one pair of pupils at random to share their connections.
- NOTE: Be sure to ask different pupils throughout the week. Remember to ask prompting questions if a pupil is struggling.

- Gather pupils into groups of 4. Give each group a letter card from the letters that have been learned and are at the beginning of words.
- Directions for pupils to follow:
 1. Each pupil in the group comes up with a different word that starts with their letter.
 2. Once all of the pupils have a word, they stand up as a team.
- When a group is standing, have them each say their word. Affirm the correct answer or attempt, let them know if it is correct, and clarify the answer.
- Continue playing as time permits. Each time give the groups a new letter..
- NOTE: Monitor student progress and make note of pupils that are able to come up with additional words. If a pupil is struggling, help them think of words.

3. Writing & Alphabet

(10 mins)

Reviewing Names

- Say: Ti yen labimi bəhim ti yuya sabbu. Pɔi ka ti pili, ti yen dahimla ti nuhi.
- Warm up exercise: have pupils tap their fingers one at a time on their thumb (start with pointer, then middle, then ring, then pinky). Do one hand at a time. As pupils learn the movement, try doing both hands at the same time.
- Put all of the pupils' name cards on the floor or table.
- Say: N yi yeli a ni a yimina tooni, nyin yuli bo a yuli shee. A yi bo n-nya li, kpuximi a takarigban maa n-zan na n sani.
- Have pupils come up 2-3 at a time. When they bring you their card, make sure they have the right name. Have pupils go back to their seat with their name card.
- Have pupils write their name on their paper.
- NOTE: Monitor which pupils are able to identify and write their name, and those pupils who have difficulty. If pupils don't recognize their name, try to find a way to help them remember it. For example, write it in large print on their notebook or a piece of spare paper. Ask them to take it home and trace the letters with their finger a few times.
- NOTE: If pupils cannot complete their name, try to find a way to help them. For example, write the letters and have them trace. Another option: see if pupils are able to write their name without looking at their name card.

Annex I: Techniques for Teaching *Learning* Lessons

I do | We do | You do

This is a process to slowly shift from the teacher demonstrating a new skill or concept, to the pupil doing it on their own.

- **I DO:** The teacher models or demonstrates, and explains what they are doing.
- **WE DO:** The teacher and pupils practice the skill or task together, once or several times.
- **YOU DO:** Pupils try it alone, with many opportunities to practice with the same and new material.

Turn and Talk

Using this technique, a teacher would give pupils a task, then ask them to turn and talk to another pupil sitting next to them. Usually, pupils must do this quickly, then turn back to the teacher. Using this teaching technique, teachers can get all the pupils in the class to actively think about and discuss the response to a question, or practice a skill. For example, if asking a comprehension question, the teacher has all pupils turn and talk quickly with the person next to them about their response to the question. By doing this, all the pupils are expected to pay attention, to think about what is being asked, and to be ready with a response. Also, it provides a way to do continuous assessment – to assess, just walk around and listen to what the pupils are saying or doing. Finally, pupils who don't speak the Ghanaian Language of Instruction can use this time to think and talk in their language, before giving a response in the Language of Instruction. Note: You must be ready to let your room get a little noisy, and be sure to have a consistent signal for pupils to start and stop the Turn and Talk activity so you can use it quickly and then move on with the lesson.

Calling on pupils “at random”

Calling on pupils at random, instead of calling on pupils to volunteer, accomplishes two things. First, it helps pupils understand that they should always be ready to share their thoughts. They should be actively listening to the teacher all the time, and thinking about the activities and discussions. Second, it gives the teacher insight into what pupils are understanding and why they may not be interested in responding. By including both the brightest pupils and pupils who need more explanation or demonstration to understand the lesson, helps the teacher reach all pupils.

Whole class response

Activities that call for the whole class to respond in unison are a way for the teacher to monitor who has understood, and who has not understood. It helps the teacher know which pupils need more support and gives the teacher a chance to pause the lesson and give feedback to individuals or groups of pupils who are not following along. For whole class response to be effective, pupils must respond all together, immediately. For example, if they are to put up two fingers to say “yes” and one to say “no”, then they must do this as soon as the teacher signals (gives them a cue) for them to respond. Note that pupils may need a bit of time to think before responding, so the teacher may wait before giving the signal. But if some pupils are permitted to respond before others, the slower pupils may simply copy the classmates who respond first. So be sure to give them a signal, and encourage them to respond right away!

In this document, the meaning of L1 is the language the child speaks most comfortably, and the L2 refers to any language that is not their L1. Because the Learning Early Grade Reading Program is focused on teaching reading and writing, these techniques are mainly for teachers who are in a situation where they have a few, or many, pupils whose L1 is not the official Ghanaian Language of Instruction of the school they are in. So, these pupils are learning to read and write in their L2 (a Ghanaian language, but a less familiar one). However, these techniques could also be applied to learning to read in another L2, such as English.

1. Create links to personal experience and background knowledge

Why? L2 learners benefit from understanding the context of new materials. Relating the new material to their experiences and background knowledge provides meaningful context.

How? When introducing a topic, ask pupils what they know about it. Have they ever seen, used, or done this thing? When? Turn and talk works well for this type of strategy. Pupils can first think about what they already know, then turn to a partner to talk about it. After that, a few pupils can share with the whole class.

2. Encourage pupils to use their home language (L1)

Why? Using the more familiar language (L1) to learn a less familiar language (L2) can help pupils clarify their understandings of classroom conversation and text, confirm and expand their understanding of the content, prepare to carry out a task in the L2, and talk about how their language works. It can also save time by allowing for the occasional quick translation, rather than undergoing a long attempt at explanation in the L2. Additionally, it can give pupils a sense of security when much of what is happening in the classroom is new.

How? Using L1 in the classroom needs to be done carefully with intentional planning. Regular code switching (changing back and forth) from L2 to L1 without a planned strategy may result in linguistic confusion. To avoid confusion and save time when explaining new vocabulary, systematically ask pupils as part of the instructional routine, “How would you say this in your language?” Likewise, after reading a story, ask pupils to retell the story in their own language. A rule of thumb for deciding on the use of L1 is to consider if the pupils’ understanding of the content is important or how to express a message in the L2. For example, when pupils share their prior experience with a new word or concept, using L1 can be helpful because what is important is to connect to their experiences, not how to express that in the L2. Similarly, when pupils are preparing a partner or group task, they may be invited to use the L1 but reminded that the ultimate product (such as a verbal or written response) should be in the L2. This encourages deeper thinking about the topic and allows for discussion in the L1 about the L2 as pupils prepare their work.

3. Practice and play with the sounds of the target language

Why? After vocabulary, phonological awareness is one of the most important skills for L2 readers to develop. Even if sounds are similar in the L1 and L2, pupils who are new to the L2 will need to develop their capacity to hear those same sounds in a new linguistic context. The first skills to develop are more general phonological awareness skills, such as identifying individual words in a spoken sentence and identifying rhyme. Finer skills such as identifying syllables and phonemes (individual sounds) and being able to substitute or delete syllables or phonemes are developed later.

How? Teachers can make a habit of integrating some phonological awareness work into lesson plans whenever they are introducing new words and phrases, and returning to phonological awareness work if pupils are struggling to read certain passages or spell certain words. Techniques include representing spoken words with pebbles or bottle caps, clapping the syllables in a new vocabulary word, and finding words pupils already know that rhyme or contain a similar sound to a new word.

4. Enhance meaning with pictures, objects, and actions

Why? L2 learners need to interact with a new word or idea many times and in many ways to fully learn the meaning. Using pictures, objects, and actions can help provide visual, tactile, and kinesthetic reinforcement to any verbal explanation that may be given for a new word.

How? It does not matter if you do not have fancy, prepared flash cards and posters. Teachers can draw simple stick figures and line drawings on the board (or ask pupils to do it). The teacher and the pupils can use actions to demonstrate individual words and concepts, or can use role play to dramatize stories they have read. Many everyday objects are portable enough for teachers to bring to school to use for demonstrations (e.g., dishes, clothing, cooking tools, parts of plants, etc.). Keep clippings of images from newspapers and magazines as small treasures to share and discuss on the right occasion. Parents' committees can also help collect empty containers that can be used in class for demonstration and vocabulary practice (e.g., old containers for different foods and drinks, empty medicine packets, labels of various products, etc.).

5. Give pupils time to process and test out ideas, either by speaking in their first or in their new language, with a partner or small group

Why? In an L2 classroom, it is important to have learners feel secure so that they can take risks and participate fully. They will feel more secure if they have time to practice using their L2 and answering the question before having to say it in front of the whole class. While this cannot be used for every question in every class, it is important to remember to do this several times each lesson so that the pupils who tend to take longer to prepare an answer and who do not frequently raise their hands have more opportunity to participate in a non-threatening way.

How? Pupils may be asked to jot down their idea on a slate or in their notebooks, or to think quietly and then participate in a turn and talk. Another way to encourage participation from even the quietest pupils is to ask a whole-class question that has two or more possible answers and all pupils answer at once. For example, a teacher might say, "In the story today, would you describe the main character as brave or foolish? Raise your fist if you think she was brave and raise one finger if you think she was foolish."
