

**NATIONAL COUNCIL FOR
CURRICULUM & ASSESSMENT**

KINDERGARTEN TRAINING GUIDE

Ministry of Education
Republic of Ghana
April 2019

ORIENTATION OF KINDERGARTEN TEACHERS
TOWARDS THE IMPLEMENTATION OF THE REVISED
KINDERGARTEN CURRICULUM FOR K1-K2

Foreword

The curriculum for Kindergarten (KG) and Basic Year 1 to 6 (B1 – B6) was revised and approved by the Cabinet of the Republic of Ghana in March 2019. The revision done through a comprehensive consultative process, led by the National Council for Curriculum and Assessment (NaCCA) is Government's action to providing *equitable quality inclusive education and lifelong learning opportunities for all*. This action of Government is in line with national priorities and the United Nation's Sustainable Development Goals, especially Goal 4.

The revised Kindergarten School curriculum is Phase one of government's plan to review and revise the entire pre-tertiary education curriculum with a deliberate focus on the **4Rs** of **R**eading, **w**riting, **a**rithmetic and **c**reativity. The revised curriculum is also intentional to equipping all learners from Ghana's schools with core competences, essential skills and values necessary for the learners to become creative, honest and responsible citizens – nationally and globally. It is expected that by going through the learning opportunities provided by the revised curriculum, teachers will ensure that all learners – at any point of their exit from formal education – are critical thinkers, numerate, digital literates, problem solvers with enormous leadership, communication and interpersonal skills.

Critically, the revised Kindergarten school curriculum is aimed at ensuring that all learners in Ghana's schools receive quality education with improved learning outcomes. The revision replaces the content-focused objectives-based curricula used in the country in the last three decades with the standards-based curricula that emphasise both the development of subject content and core competencies. This revision provides every school and teacher with adequate information on what to use to measure 'what each learner learns, understands and be able to do' at the various levels of academic progression. The adoption of the standards-based curriculum model requires that accountability in Ghana's schools is enhanced, that teachers use creative pedagogical approaches and that a culture of continuing professional development for teachers is created. As a first step, Professional Learning Communities (PLC) will be institutionalised across the country. Teachers who are the gatekeepers to the effective implementation of the revised curriculum therefore need to be oriented and trained.

It is for this reason that the Ministry of Education through NaCCA has developed this guide for the orientation and preparation of teachers to start teaching the revised curriculum. The guide is to help facilitators and educational experts provide quality training for every classroom teacher through in-service training. The training for in-service teachers based on the Guide will provide participants with detailed information about the content of each subject and the associated core competencies. The participants will become reflective practitioners, with the requisite knowledge, skills and experiences needed to hit the ground running when the curriculum arrives in the classrooms across Ghana.

I have no doubt that by working together to effectively implement the revised curriculum Ghana will become a Learning Nation.

Dr. Prince Hamid Armah
Executive Secretary (Ag.)

Introduction

The National Council for Curriculum and Assessment (NaCCA) has developed this Training Guide to support the preparation of in-service teachers to implement the primary school curriculum. In-service teacher preparation approaches will include training workshops, seminars and classrooms support to ensure that teachers develop the conceptual understanding of the subjects and general learning and teaching approaches at each basic year level and phase. The guide has been developed by the individuals who will be facilitating the training of teachers for the implementation of the revised Kindergarten school curriculum.

The guide is divided into four modules. Module one exposes teachers to the rationale for revising the school curriculum and what is new in the Kindergarten school curriculum. The remaining three modules have a special focus on pedagogy – creative approaches – for learner centred teaching that is required for improving learning outcomes in Ghana's schools. The modules emphasise the approaches needed to support the development of global core competencies and highlight assessment strategies required to enable the improvement in learning outcomes. The four modules have been field-tested in urban, peri-urban and rural classroom settings with positive outcomes.

The guide is arranged in sessions. Each session has a catalogue of activities for both participants and facilitators. These are carefully packaged to help the teacher – who is the focus of the implementation of the revised curriculum – to follow the sequence and progression of learning areas in the curriculum. It is to enable teachers to understand the content of the curriculum; strands, sub-strands, standards, indicators and exemplars and related lesson planning, identification and use of resources, creative pedagogic approaches and assessment.

Also captured in the guide is the plan for the initial national training to include the training of trainers at national, regional and district levels and the preparation of classroom teachers on the revised curriculum so that they are better positioned to implement it. The training involves upstream training for 157 National Trainers, Midstream Training of 4,320 Regional and District Trainers and downstream training of 151,886 teachers across the country. This initial training shall be followed by regular in-service training, refresher courses at both school and cluster level through time-tabled continuous professional development sessions and Professional Learning Communities (PLC).

Therefore, the guide is aimed to:

- provide facilitators with the necessary tools and guidelines for training kindergarten teachers for the effective implementation of the revised curriculum;

- enable facilitators to understand the concept of the new standards-based curriculum and its importance in the education, growth and development of the Ghanaian learner for national development;
- provide guidelines to experts who are directly or indirectly involved in activities aimed at improving the quality of education in Ghana.

To use the guide facilitators:

- should read thoroughly every activity captured under the various sessions to ensure that they have a conceptual understanding and imbedded meaning of each activity;
- should consult the NaCCA training team for required clarification and support;
- are to ensure that the recommended training resources are available in their right quantities;
- are to note that the approaches suggested for an effective delivery of the training are not exhaustive;
- are encouraged to use other more creative strategies that can help achieve the goals of the training.

As a guide, all participants in the various nationwide training programmes and in the implementation of the curriculum should daily ask the following critical questions:

1. What do my learners need to know, understand, and be able to do? (*Plan*)
2. How do I teach effectively to ensure learners are learning? (*Do*)
3. How do I know students are learning? (*Reflect*)
4. What do I do when students are not learning or are reaching mastery before expectation? (*Revise*)

Users of this guide (facilitators), should therefore consider among other things:

1. what teachers must know and be able to do,
2. what supports/facilitates effective educational practises,
3. what evidence demonstrates teaching effectiveness, and
4. what steps can be taken to continuously improve and build upon effective classroom instruction.

Table 1, Materials required, gives a summary of the content of the Training Guide as captured in the various sections of the guide. It also provides details on the references, resources and materials required by facilitators and participants to ensure an effective orientation programme.

Table 1: Materials Required

Session	Session Topic	Materials for the training	Page
Session 1.1	Welcome, Introductions, & Overview	• Info Sheet • Self-assessment strip	
Session 1.2	Highlights of the National Pre-Tertiary Curriculum Framework (NPCF)	• PPT 1 : Handout of the highlights

TRAINING GOALS

The training is designed to provide trainers and teachers with the opportunity to:

1. understand major learning gaps the new curriculum has addressed
2. show understanding through practise the pedagogical tools required to effectively implement the curriculum
3. initiate the process of establishing, and engaging in Professional Learning Communities (PLCs) as a tool for promoting reflective practise and whole school development
4. identify the necessary resources and support structures needed to ensure smooth implementation of the curriculum
5. understand the processes and the essential tools for lesson planning, assessment, monitoring and reporting on learners' progress.

LEARNING OUTCOMES

At the end of the training, the trainers (national and sub-national) and teachers will be able to:

- describe the major learning gaps the new KG curriculum is designed to address (Goal 1)
- explain the major differences between the standards-based curriculum and the existing KG curriculum (Goal 1)
- identify the primary features of the KG standards-based curriculum and explain what is new in teaching at KG (Goal 1)
- explain the differences between the pedagogies used in facilitating KG lessons in the objective-based curriculum and the standards-based curriculum (Goal 2).
- demonstrate the use of a variety of pedagogical tools that can be used in KG to effectively implement the curriculum (Goal 2).
- explain what core competencies are and the differences between the assessment strategies used in the implementation of the objectives-based and the standards-based curriculum (Goal 2).
- identify barriers to learning, particularly those related to the cross cutting issues (gender, inclusivity, and resources availability), and explain how the standards-based curriculum will be used to address them in the classroom (Goal 2).
- Prepare sample Scheme of Learning and lesson plan based on the standards-based curriculum.
- explain the basic features of a professional learning community (PLC) and their potential for creating a new teaching culture where teachers will be willing to support one another (Goal 3).

- explain the roles and responsibilities of the Key Actors¹ in the PLC (DDE, CS, HT, CL/Coach and teachers, inclusive education coordinators, KG coordinators) (Goal 3) in the implementation of the standards based curriculum.
- describe the necessary support structures needed to ensure circuit supervisors and head teachers can assume and sustain their roles effectively (Goal 4).
- demonstrate the use of a variety of assessment strategies (including assessment – for, of and as learning) to support the learners appreciate themselves as they develop core competencies and acquire skills (Goal 5).
- explain "Fidelity of implementation", and its role in measuring success and impact of new initiatives (Goal 5). Develop action plan (for different levels of actors) to ensure a dynamic ongoing monitoring and reporting of the progress of the implementation of the new curriculum throughout the school year (Goal 5).

¹ DDE – District Director of Education; CS – Circuit Supervisor; HT – Head teacher; CL – Curriculum Leader.

DAY 1

Module 1: Introduction & Opening and Training Overview

AGENDA

Session 1.0: Registration/Opening	8.00 – 9.00 am 1.00 hour
Session 1.1: Welcome, Introductions, and Overview – <i>Overview of Role, Responsibilities of Trainers</i> – <i>Self-assessment:</i> – <i>Workshop Norms/Participants expectations</i>	9.00–10.00 am 1.00 hour
Session 1.2: Highlights of the National Pre-Tertiary Curriculum Framework (NPCF) – <i>Presentation and Discussion</i>	10.00am–11.00am 1 hour
Snack Break	11.00am – 11.15pm
Session 1.3: Introduction to the New Kindergarten Curriculum – <i>Discussion on current problems in learning teaching and assessment of Kindergarten</i> – <i>Presentation on the new Kindergarten curriculum focusing on the key features, definitions, organisation, scope and sequence, etc.</i> – <i>Group discussion (questions based on the key features)</i> – <i>Group presentations</i> – <i>Highlights of differences with old and new curriculum (Group discussion and presentations)</i>	11.15am – 1.30pm 2 hours 15 minutes
Lunch Break	1.30pm – 2.30pm
Session 1.4: Understanding the Front Matter of the Kindergarten curriculum – <i>Discussion on elements of the Front Matter including the rationale, teaching philosophy, learning philosophy, general aims, core competences, and instructional expectations etc</i>	2.30pm – 3.30pm 1 hour
Health Break	3.30pm – 3.45pm
Session 1.4: Understanding the Front Matter of the Kindergarten curriculum (CONT'D) – <i>Discussion on elements of the Front Matter including the rationale, teaching philosophy, learning philosophy, general aims, core competences, and instructional expectations etc.</i>	3.45pm – 5.00pm 1 hour 15 minutes

Session 1.1: WELCOME, INTRODUCTIONS, & OVERVIEW

	Opening/Welcome (20 min) (see Opening Programme)
	Introductions (10 min) Say:  We are going to start this session with an exercise called: What we think we know about others’. Do:  Invite each person to find a partner they have not had the opportunity to meet before. Without exchanging words they are asked to write down three facts they guess about their partner: 1. Where they come from (home town). 2. Number of siblings. 3. What they enjoy doing. Each person is then invited to share these facts with their partners. Say:  • Invite your partners to correct the information while each of you takes notes of the corrected facts. Do:  • Invite the group to return to their seating positions. • In a plenary facilitate a discussion of the exercise. Say:  • In the exercise which you just did, raise up your hand if you were accurate: a. all the time? b. Half of the time? c. Not at all

	Overview of the training (15 min) DO: ★ • Give handouts containing training goals and learning outcomes to participants. • Call participants randomly to read out and explain the training goals and learning outcomes (ensure fair participation of participants). • Call a participant to readout the schedule for the day as others follow. Workshop Norms/ Participants expectations (5 min) Do: ★ • Ask participants to come out with their expectation for this session. (It could be verbal responses, written on post cards or flip chats) • Ask participants to write down their expectations individually on a sticky pad and share in a plenary. • Ask participants to paste their written expectations on the wall. (At the end of the session, they will revisit the expectations to find out whether they have been met.) • Ask participants to come out with working routines to help achieve the training goals. Note to facilitator: The norms should promote an environment where people feel comfortable to share ideas and to ask questions, with the goal of helping one another understand and support one another to become better trainers. We are a team.
---	---

Infosheet 1	Roles and Responsibilities of Trainers (5 min) Do:  • Review the main responsibilities of trainees (see appendix) • Lead participants to share thoughts on the question below: What do you think will be the most challenging responsibility?
--------------------	--

**Self
Assessment
strip**

Self- assessment (5 min)

DO: ★

- Invite the participants to complete the Self-Assessment Exercise.

Say: 💬

- The self-assessment is not an examination but a means of measuring the extent to which learning will take in the process of the training. The feedback that will be gathered through the assessment will be used to frame the objectives to better meet your needs.
- You will complete the same self-assessment at the end of the training. Participants should be aware that the post-training assessment feedback will help measure the success of the training.

Do: ★

- Give out the assessment tools to participants.
- Explain the scale that they should use:

1	2	3	4	5
<i>Not at all confident</i>	<i>Slightly confident</i>	<i>Somewhat confident</i>	<i>Confident</i>	<i>Very confident</i>

- Ask participants to complete the Self-Assessment Exercise.
- After 15mins, collect the completed assessment sheets.

Session 1.2: HIGHLIGHTS OF THE NATIONAL PRE-TERTIARY CURRICULUM FRAMEWORK (NPCF)

Session Objectives

Say:

- In this session, we shall be looking at the highlights of the National Pre-Tertiary Curriculum Framework (NPCF).
- By the end of the session, you will be able to explain the essential features of the National Pre-Tertiary Curriculum Framework (NPCF).

Resources: PPT 1, Flip charts, markers and post cards
Resource pack

Highlights of the NPCF Presentation (40 mins) PPT 1

DO:

- Before the presentation, ask participants to note down their questions on a post card and check whether they would be answered as the presentation unfolds.
- Present **PPT 1** to participants while ensuring inclusivity (Visibility, audibility and participation)
- As you present, ask questions based on the presentation to capture their attention and sustain their interest.
- Invite one or two questions from participants at the end of the presentation and let the house discuss
- Ask participants to put any unanswered questions in a parking lot to be responded to in the course of the day.

	Discussion (20 min) Say:  f • All females should go to my right hand side whereas the males stay at the left hand side. • Each group should Count 1, 2,3,4,5 repeatedly. • Ask all those with number one to be together, those with number two, three, four and five should do same. DO:  Ask participants in their groups to discuss: • The new things they have learnt • How the presentation would improve their knowledge and skills as KG practitioners
---	--

Session 1.3: INTRODUCTION TO THE NEW KG CURRICULUM

Session Objectives

Say: 

- In this session, we shall be looking at the nature of the new curriculum
- By the end of the session, you will be able to explain;
 - ✓ current problems in learning, teaching and assessment of KG curriculum.
 - ✓ the essential features of the new KG Curriculum.

Resources needed: PPT 2, Flip charts, markers and stick pads, masking tape. Resource pack , KG curriculum

Discussion on current problems in learning, teaching and assessment of KG curriculum (20 min)

DO: 

- Lead participants in a whole group discussion to reflect on the problems associated with the use of the current curriculum.

Say: 

What are the main challenges in learning, teaching and assessment of KG curriculum?

DO: 

- Write down their responses on the flips and react to them
- In a plenary, consolidate their responses by sharing the rationale for the new curriculum with them.

Say: 

- The rationale for the new curriculum is to address the challenges in the existing curriculum so refer to the rationale of the revised curriculum and read it to consolidate your understanding.
- Fundamentally, the review of the curriculum is to respond to the national priority of shifting the structure and content of education system from merely passing examination to building character, nurturing values, and raising literates, confident and engaged citizens who can think critically (refer Slide)

DO: 

- Invite about 4 views or comments from participants on what they learnt from their reading

Presentation on the new KG curriculum focusing on the key features, definitions, organisation, scope and sequence, etc. (30 mins)

- Present **PPT 2** to participants on the new KG curriculum focusing on the key features, definitions, organisation, scope and sequence with emphasis on aspects that have not been discussed in plenary **(30 mins)**
- In groups of four (4), ask participants to open to the Front Matter of the new KG curriculum in the Teacher Resource Pack, to identify and discuss the key features:
 - a. organisation of the curriculum (strands, sub-strands, content standards, indicators and exemplars.)
 - b. learning-centred pedagogy (differentiation, scaffolding and use of ICT as a pedagogical Tool
 - c. Scope and sequence etc.

DO: 

- Give copies of the new KG curriculum to participants in groups of five (5) to discuss the features of the new KG Curriculum

	Say:  • Individually write down two features associated with the new KG curriculum that will enhance teaching, learning and assessment. • Share your points with another person and agree on 3 points noting your disagreement as well. DO:  • Randomly ask four pairs, one at a time, to share their points of agreed and disagreement if any. • In a plenary ask 3-4 volunteers to share their points with the participants
	Presentation on the highlights of differences between old and new curriculum (30 min) • Ask participants to stretch a bit by moving four steps forward, backwards, left wards and rightwards in slow manner, fast and fastest. Say:  • Thank you, you should kindly be on your seats for a presentation on the changes in the new KG curriculum. DO:  • Present PPT 2, slides 47-50 on what has Changed while ensuring inclusivity: visibility, audibility and participation. Before the presentation, ask participants to note down their questions on a post card and check whether they would be answered as the presentation on-folds. • As you present, use eye contact to capture their attention and also ask questions to sustain their interest. Ending your Presentation: • Invite one or two questions from participants at the end of the presentation and call few participants to response to the questions. In doing this, ensure fairness in terms of gender representation.

	Group discussion (20 min) DO:  • Using the existing grouping, let participants discuss the differences between old and new curriculum • Ask participants to discuss any unanswered questions at their group levels • Request group members to present their agreements and disagreements for plenary discussion • Thank participants for their contributions.
--	---

Session 1.4: UNDERSTANDING THE FRONT MATTER OF THE KG CURRICULUM

Presentation on the Front Matter of the KG Curriculum

1. Session Objectives

- In this session, we will be talking about some elements of the Front Matter of the new KG curriculum

By the end of the session, you will be able to explain the:

- rationale for the New KG curriculum
- teaching & learning philosophy
- general and specific aims
- core competencies
- instructional expectations

Resources needed; Flip chart, markers, stickers, copies of the Front Matter of the revised KG curriculum, PPT 3.

Discussion on elements of the Front Matter including the rationale, teaching philosophy, learning philosophy, general and specific aims, core competencies, and instructional expectations (75 mins).

Say:

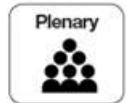

- “Reading and understanding the Front Matter of a curriculum is a waste of time since it plays no role in lesson planning and delivery” Do you agree?
- I want you to think about this statement for a few seconds, and then turn to your elbow-partner and discuss your thoughts.

	Do:  • After 2 minutes, let about four participating pairs share their views in a plenary. • Summarise participants' responses on a flip chart. Say:  • We now know that understanding the Front Matter of a curriculum is important. So, let us make an effort to read and understand the Front Matter of the revised KG curriculum. Do:  • Let participants sit in their previous groups to discuss the Front Matter of the revised KG Curriculum (See the KG curriculum and Teacher Resource Park): A. - the rationale, - teaching philosophy, - learning philosophy, - general aims, - core competencies, - instructional expectations B. - learning domains (expected learning behaviours) - attitudes and values - suggested time allocation • After 10mins, let participants move from their home groups to join other groups to share ideas eg. One member from home group A remains in the group whereas the others join other groups to share what they have learnt in their Home Groups. • After 10mins, let participants return to their home groups to share what they have learnt and put their learning hints on a flip chart to be pasted on a wall.
--	---

	DO: ★ • Present PTT 3 to consolidate their understanding while ensuring inclusivity visibility, audibility and participation. Before the presentation, ask participants note down their questions on a post card and check whether they would be answered as the presentation on-folds. • As you present, use eye contact to capture their attention and also ask questions to sustain their interest. • After your presentation, invite four participants to contribute to the session by asking questions, making suggestions or bringing out issues that call for clarity. • Thank Participants for contributing to this session
--	---

End of Day Check-in

End of Day Check-in (10 mins)

Say: 

- What are the key lessons you have learnt today?
- What was your favourite part? Why?
- What do you think will be the most challenging for you as a trainer/teacher?
- Write one thing you already knew, one thing that you have learnt today, and one question you still have on sticky notes. After that, share one thing you have learnt with your partner.

Facilitator's Note: Give out three (3) different colours of the sticky notes: One colour for what they already knew, one for what they learnt, and one for a question they still have.

Do: 

- Invite a few participants to share one thing they have learnt with the whole group.
- Ask participants to post their sticky notes on the wall
- Thank participants for their contributions and hard work.

DAY 2

Module 2: PEDAGOGY & ASSESSMENT

AGENDA

Session 2.1: Review of previous day's work and Overview of Module 2	9.00 – 9.20 am 20 minutes
Session 2.2: Creative Pedagogies used in Kindergarten lessons – <i>Discussion of creative pedagogies in teaching Kindergarten</i> – <i>Discussion of learning-centred pedagogies in new Kindergarten curriculum</i>	9.20–10.20 am 1 hour
Session 2.3: Demonstration of Creative Pedagogies used in Kindergarten lessons – <i>Demonstration of a lesson in the new Kindergarten curriculum</i> – <i>Discussion of creative and learning-centred pedagogies in a lesson demonstration</i>	10.20–11.00 am 40 minutes
Snack Break	11.00 am –11.15am
2.3 Demonstration of Creative Pedagogies used in Kindergarten lessons – <i>Role playing learning-centred pedagogies in the new Kindergarten curriculum</i>	11.15am –12.00pm 45 minutes
Session 2.4: Assessment strategies used in the Kindergarten classroom – <i>Discussion on current assessment strategies in teaching Kindergarten</i> – <i>Presentation on standards-based assessment highlighting assessment “for”, “as”, and “of”, learning.</i>	12.00am – 1.00pm 1.00 Hour
Lunch Break	1.00pm – 2.00pm
Session 2.4. Assessment Strategies used in the new Kindergarten curriculum – <i>Designing assessment tasks for a content standard in new Kindergarten curriculum (Group discussion and presentations)</i>	2.00pm – 3.30pm 1 hour 30 minutes
Health Break	3.30pm – 3.45pm
Session 2.5: Barriers to learning – <i>Brainstorming on barriers to learning</i> – <i>Discussion on how barriers (such as gender, inclusivity, and resources availability, etc.,) could be addressed in lessons</i>	3.45pm – 5.00pm 1 hour 15 minutes

Training day two

Session 2.1: REVIEW OF PREVIOUS DAY'S WORK & OVERVIEW OF MODULE 2

Review of previous day's work & Overview of Module 2 (20 min)

- Review of previous day's work

DO: 

Write the themes for the various sessions that were discussed the previous day on sheet of papers and assign groups to write down one thing they learnt on each session for plenary discussion.

- Overview of Module 2)

Present the highlights of the thematic areas of module 2 to participants

Say: 

In this module, we will be looking at:

1. Pedagogies used in KG lessons.
2. Demonstration of creative and learning-centred Pedagogies used in lessons at the KG level.
3. Assessment strategies used in KG lessons.
4. Barriers to learning

Session 2.2: PEDAGOGIES USED IN KG LESSONS

Creative and learning-centred pedagogies

- Discussion on creative pedagogies in teaching KG **(30 min)**
- Ask participants to sit in groups

Say: 

- Discuss how KG teaching is currently done and write down the associated gaps.
- You should make recommendations to correct the gaps
- Show a video on best KG practises (differentiated instruction, play-based learning with local content) and note down their points for discussion.
- Ask participants to comment on issues including how inclusivity is promoted to support learners with different background: ability, interest, learning styles and gender.

DO: 

- Present PPT 4 as participants listen attentively.
- Invite maximum of four questions for discussion.

Group Work: Ask groups to open to pages xii – xvi of the new KG curriculum/Teacher Resource Pack.

- Ask groups to study the creative and learning-centred pedagogies and answer the following questions:
 - i. The revised curriculum is aimed at equipping each learner with skills and competencies in the 4Rs. What are the 4Rs?
 - ii. Describe one creative pedagogy and state how its use can lead to the development of the 4Rs in all learners
 - iii. What is inclusion? What creative pedagogies can be used to achieve inclusion in the KG classroom?

	iv. What is differentiation? v. What is scaffolding? Group Presentation • Participants in group present their findings. (The acceptable responses should be written on a flip chart/chalkboard.)
--	--

Session 2.3: DEMONSTRATION OF CREATIVE AND LEARNING-CENTRED PEDAGOGIES USED IN KG LESSONS

	Session Objectives Say:  - In this session we will be planning and delivering a creative and learning-centred lesson. By the end of this session you will be able to: - Plan a creative and learning-centred pedagogy lesson suitable for the KG class. - Demonstrate creative and learning-centred pedagogies in an integrated KG curriculum. Resources needed; Flip chart, markers, stickers, letter/word cards, pebbles, audio visuals, learning centres, Minimum TLM Package, poster colours, sound producers, pencils, card boards Planning learning-centred pedagogies in the revised KG Curriculum (40 mins) Demonstration of Creative and learning-centred pedagogies(40 mins) Say:  - I am going to demonstrate some of the creative and learning-centred pedagogies discussed in session 2.2 in an KG lesson. - During the demonstration, you will participate as learners. At the same time, observe the lesson critically because you will practise it. Do:  - Demonstrate some of the creative and learning-centred pedagogies discussed in session 2.2. - Ask participants to discuss and comment on the demonstration they observed by identifying the pedagogies
---	---

	observed and the purpose of each one. ▪ Invite 2-3 participants to demonstrate the pedagogies they observed. Practice Time (30 mins) Say:  • It is time for you to plan and role-play the learning-centred pedagogies discussed in the previous session. DO:  • Re-configure the group members by asking each group to start counting from one (1) to five (5) and regroup them according to the new numbers eg. All participants with number one (1) should come together; those with two (2), three (3), four (4) and five (5) should do same. • Share the key principles of Creative and learning-centred pedagogies: 1. Play-based activities 2. Using manipulative resources 3. Appropriate use of starter 4. Ensuring equal opportunities for all learners (ability, interest, learning styles and gender) 5. Differentiation, 6. The use of positive reinforcement to promote active involvement 7. Appropriate language to communicate 8. Thematic integration • Prepare participants to observe the role play by using assessment format; DO:  • Ask group leaders to ballot for order of presentation to ROLE-PLAY how they would present lessons at either KG1 or KG 2 using key principles of Creative and learning-centred pedagogies and, highlight some of the KG principles that were considered in the lesson for others to appreciate and make suggestions for improvement. End of Session: Say:  • This session has come to an end, thank you for your kind attention and participation.
--	--

Session 2.4: ASSESSMENT STRATEGIES USED IN KG LESSONS

Say: 

- In this session, we shall be discussing assessment strategies used in KG lessons.

By the end of this session you will be able to:

- explain what assessment is
- describe the forms of assessments and the purpose of each one
- distinguish between assessment “for”, “as”, and “of”, learning as used in the revised KG curriculum.
- Design assessment tasks based on a given indicator

Resources needed: Flip chart, markers, stickers

- **Discussion on current assessment strategies in KG Class (15 mins)**

Say: 

- In your groups, use 8mins to discuss the current assessment strategies at the KG level, their strengths and weaknesses.

DO: 

- Ask each group to present one weakness of the current assessment strategies used at the KG class.

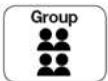

Presentation on standards-based assessment highlighting (20mins)

Assessment “for”, “as”, and “of”, learning.

Say: 

- Now, let us have a quick look at the modes of assessment that we have in the new KG Curriculum.

DO: 

	• Present PPT 5 as participants listen and write down their points for discussions. • Ask participants to open to “Assessment” in their Teacher Resource Pack. • Ask them to silently read the section Assessment (2mins). • Let each participant move round the class and ask one person to explain assessment “for”, “as”, and “of”, learning. Participants write the explanations and also the name of the one who gave the explanations. • Invite 3-5 participants to share responses from their partners with the whole group. Say:  To summarise, assessment is: • The process of gathering information about learners to make decisions about teaching and learning. A way of finding out whether teaching and learning targets are achieved and the extent to which learning has taken place. • In the context of the revised KG Curriculum, assessment is the process of gathering holistic information about learners’ progress and achievements in relation to the learning targets for better understanding of the behavioural patterns of the learners in order to plan and support the learner to actualise the being for effective selection and placement (2mins).
 	Design assessment tasks for a content standard in the revised KG curriculum (50 min) Say:  • Now that we are familiar with what goes into assessment in the KG class, let us look at sample assessment tasks. Do:  • Ask participants to open to “Sample Assessment Tasks” in the Teacher Resource Pack. • Discuss the sample assessment tasks with the participants (5mins). ▪ Ask participants to use the information gathered from the Teacher Resource Pack to design assessment tasks for a KG Class. Assign each group a particular class. Have each group select a content standard from

a specific strand (e.g. group 1 for KG 1, strand 1).

- Give each group 15mins to design sample assessment tasks.

Group presentations and discussion (40 min).

Say: 

- Group 1 will present first follow by group 2 and in that order so kindly note down your comments for plenary discussions at the end of all the presentations.

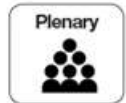

Do: 

- Invite the group to do their presentations.
- Call a member from each of the five groups to react to any of the presentations and invite others to also share their views on such reactions (10mins).
- Call a member from each of the five groups to react to any of the presentations and invite others to also share their views on such reactions (10mins).

Say: 

- Thank you, you have all done well, the session has come to an end. Let us get up and shake hands with three people to end the session.

End of Day Check-in

End of Day Check-in (10 mins)

Say: 

- What are the key lessons you have learnt today?
- What was your favourite part? Why?
- What do you think will be the most challenging for you as a trainer/teacher?
- Write one thing you already knew, one thing that you have learnt today, and one question you still have on sticky notes. After that, share one thing you have learnt with your partner.

Facilitator's Note: Give out three (3) different colours of the sticky notes: One colour for what they already knew, one for what they learnt, and one for a question they still have.

Do: 

- Invite a few participants to share one thing they have learnt with the whole group.
- Ask participants to post their sticky notes on the wall
- Thank participants for their contributions and hard work.

Session 2.5: BARRIERS TO LEARNING

Say:

By the end of this session you should all be able to:

- Identify barriers to learning, particularly those related to the cross cutting issues (gender, inclusivity, and resources availability).
- Explain how the standards-based curriculum will be used to address the barriers in the classroom (Goal 2).

Introduction to the session: 10min

Do:

- Welcome and introduce participants to the session on the barriers to learning and strategies to promote inclusive learning as well as introduce them to the objectives of the session.

Conduct a whole group discussion.

Refer participants to the previous day's introductory activity "**What we think we know about others**".

Say:

We are going to draw on "**What we think we know about others**" activity which was used for our self introduction yesterday.

When you did the guessing exercise:

- What informed your thinking?
- As a teacher what assumptions and beliefs do we have concerning girls? Boys? Children with disabilities?
- What does it mean when we make such assumptions or hold such beliefs about our learners?

Do:

- Summarise the adverse effects of unconscious biases and assumptions.
- One of the barriers to learning is teachers' and pupils' own unconscious or conscious biases and stereotypes about certain groups of people.

	• These biases can result in stereotypes towards some groups of learners. The adverse effects of biases and stereotypes on learners include unfair treatment of learners. • For more information on adverse effects of biases please refer to the Teacher Resource Pack. Learner Diversity (20min) Resources: flip chart paper, markers, Learners with special educational needs (Teacher Resource Pack), Say:  • For effective teaching and learning, it is important that teachers understand who their learners are. How teachers perceive their learners will determine how they engage them. Do:  • In Whole Group discussion lead participants to share their views on the background, physical and other characteristics that their learners share in common and those that are unique to each child. • Write on flip chart: 1. What are the similarities and differences among them? (socio-economic background, physical, etc). 2. Why do we need to know our learners? Say:  • Referring to the learners in your classroom; what are the similarities and differences among them? (socio-economic background, physical, etc). Why do we need to know our learners? • Write your answers down. Do:  • Invite 3 participants to share their answers • Write their responses on the flip chart paper Say:  • It is true that children are homogenous because they share some similarities e.g. they may be of same
--	--

	age, wear the same uniform, all human beings, learn the same things, may come from the same community, practise same religion and are all Ghanaian etc. • However, the children in our classrooms also have a lot of differences. Some of the difference include: sex, functional abilities, interest, personal values, aspiration, experiences, styles of learning, socio-economic backgrounds etc. • For more information, please refer to the Teacher Resource Park for more information on diverse learners in our classroom who need support. In addition to what you have said, it is important to know your learners because it will help the teacher to do the following: (Write on the flip chart prior) • Create a psychologically safe environment for every learner. • Determine each student's readiness for learning. • Identify multiple access points to the curriculum to increase engagement and success. • Develop and demonstrate greater emotional intelligence in the classroom. • Provide better response to the needs of all learners for improved presence, participation and learning outcomes. DISCUSSION ON BARRIERS TO LEARNING (20 mins) Do:  • Ask participants to: i. identify and discuss 4 major barriers that may hinder access to the curriculum for the diverse groups of learners in our classroom. ii. Discuss how these barriers adversely influence learning outcomes. iii. Provide at least 3 suggestions on how you can address these issues in your classroom. iv. Write their responses on the flip chart papers for presentation.
--	--

Say: 

- It is time for presenting your group work. It is a sign of respect to listen to your colleagues when they are presenting. Questions will be taken when all of you have finished your presentation, so please, write down your questions and comments on a sheet of paper and post them.
- If we are unable to respond to all questions, we will put them into the parking lot and address them in the course of the training.

Do: 

- Invite one representative from each group to present key highlights of their group work (Each group has 3 minutes to present their key points).
- Listen to the presentations and note down any discrepancies in their presentation point them out and help to address them.
- Let each group stick your presentation to the wall after the presentation.

Say: 

- Thank you for sharing your thoughts on barriers to learning.
- Now, please relax and pay attention while I present to you some more perspectives on barriers to learning, adverse effects as well as some suggestions on how to address them.

Do: 

- Present PPT 6. Focus on the slide on “Perspectives on barriers to learning”: social and medical model perspectives; consequences of not knowing the learners and addressing their needs.

Strategies: slide on Universal design for learning (UDL), pathways to learning.

STRATEGIES FOR EQUITY AND INCLUSION (25minutes)

Resources Pack

- Differentiate instruction handout.
- Pictures of the following fruits: orange, mango, apple and pineapple one fruit per page.

Say: 

	• I am aware that you are already doing a lot to ensure that every learner needs to count in your teaching. • We will now focus on a few more strategies that can be used to engage all learners in the teaching and learning process. • From the beginning of this session we have been talking about barriers to learning. Can you mention some of them? • So in this session, we will be considering strategies to addressing of some of these barriers. • As teachers, we know that not all learners in our class can complete the same work to the same level and that this can cause students to feel frustrated and become disengaged from learning. In order to ensure maximum participation in our classes, we need to think about ways to vary our teaching content and methodology to include more learners. One way we can do this is by differentiation. • In this session we will be learning more about differentiated instruction. Say:  • This is going to be the order of work. • There are 4 pictures of different fruits in this room, based on your interest you will move to the fruit that you like most. • While in your preferred location, please take note of the assignment on your table and quickly locate your reading area in the differentiation handout. Do:  • Explain the task to them and assist those that are unable to identify the portions of the material for their assignment to do so. • Read the assignment below in the hearing of all participants: Assignment Read your assigned task and prepare a summary of the key messages for sharing in a plenary (10min). • Orange: Introduction to differentiation, learning environment and instructional planning. • Mango: Presentation, learning activities and instructional planning for learning activities.
--	---

- Pineapple: Resources and instructional planning for resources.
- Apple: Assignment and planning for assignment.

Your presentation should include:

- a. What is differentiation? b. What can be differentiated?
 - c. Planning for differentiated instruction in your specific area of assignment
- your presentation will last for a maximum of 5 minute each.

Do:

- In a plenary invite participants to present their work one after the other.

Say:

- We need everybody to pay attention while a group is presenting
- The Knowledge gained from this session will be applied to the lesson planning session where you will be asked to demonstrate how you will differentiate for different learners.
- Please note down your questions and we will respond to them at the end of each presentation. If time does not allow us to respond to all of your questions, we will do so later when you are planning for lessons tomorrow.

Do:

- Call on representative of each group to present one after the other.
- Critique and add any missing information.
- Invited 2 major questions.
- Please take this assignment home:

Take Home Assignment:

- Use the knowledge gained from this exercise to develop a lesson plan to teach a class of your choice. Among other things, the plan should include the following:
- Class(level)

- Topic
- The barriers to learning you intend addressing
- Show how you are differentiating.

Note: This exercise will be used for another exercise tomorrow.

CLOSURE

Do: 

- Bring the session to a close by summarising the key points.

Say: 

Evaluation: Take a sheet of paper and answer the following question **(3 Min)**:

- What are you leaving behind after participating in this session?
- What one new thing did you learn?
- What questions do you still have?

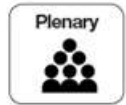

Do: 

- Let them pass their response to you.

Say: 

- Thank you all for the good work done.
- I have learnt a lot from you and I hope you did same.
- There is a lot of information online on how to make your classroom gender responsive and socially inclusive. Resources are also available to help you support children with disabilities (please refer to the power point slides 6).

End of Day Check-in

End of Day Check-in (10 mins)

Say:

- What are the key lessons you have learnt today?
- What was your favourite part? Why?
- What do you think will be the most challenging for you as a trainer/teacher?
- Write one thing you already knew, one thing that you have learnt today, and one question you still have on sticky notes. After that, share one thing you have learnt with your partner.

Facilitator's Note: Give out three (3) different colours of the sticky notes: One colour for what they already knew, one for what they learnt, and one for a question they still have.

Do: 

- Invite a few participants to share one thing they have learnt with the whole group.
- Ask participants to post their sticky notes on the wall
- Thank participants for their contributions and hard work.

DAY 3

Module 3: LESSON PLANNING

Session 3.1: Review of previous day's work & Overview of Module 3	9.00 – 9.20 am 20 minutes
Session 3.2: Teaching and learning resources for teaching KG lessons – Discussion on how to identify and select classroom resources needed in teaching KG lessons – Discussion on how to access resources needed in teaching KG lesson	9.20–10.20 am 1 hour
Session 3.3: Use of Instructional Time: Phases/Stages of a Lesson – Discussion on learning activities that go into the Phases/Stages of a lesson in the revised KG curriculum – Discussion on instructional time allocation for each Phase/Stage of the revised KG curriculum	10.20–11.00 am 40 minutes
Snack Break	
Session 3.4: Writing Scheme of Learning – Presentation and discussion on the new formats for writing Scheme of Learning – Hands on practice on writing new Scheme of Learning	11.15am –12.00pm 45 minutes
3.4 contd.: Writing Scheme of Learning – Group presentations and discussions on schemes of learning written in the new format	12.00am – 1.00pm 1.00 Hour
Lunch Break	
Session 3.5: Lesson Planning and Demonstration – Presentation and discussion on the new format for writing lesson plan – Hands on practice on writing lesson plan (Group work)	2.00pm – 3.30pm 1.5 hours
Health Break	
3.5 contd.: Lesson Planning and Demonstration – Group Presentations and discussions on lesson plans written in the new format	3.45pm – 5.00pm 1.15 hours

Session 3.1: REVIEW OF PREVIOUS DAY'S WORK & OVERVIEW OF MODULE 3

Review of previous day's work & Overview of Module 3 (20 min)

- Review of previous day's work (15 mins)

In home groups, let participants write four things they learnt in the previous day's lesson on a sticky pad and paste it on a wall for gallery walk.

DO:

- Ask participants to move round and pick information from the sticky pads.
- Invite one person from each group to mention what their group learnt from other group members.
- Write them on a flip chart for reference purpose.
- Thank them for recalling what they learnt from previous day's lesson.

Overview of Module 3 (5 mins)

Say:

In this module, we shall be talking about:

- ✓ Teaching and learning resources.
- ✓ Use of instructional time.
- ✓ Writing of scheme of learning
- ✓ Lesson planning

Session 3.2: TEACHING AND LEARNING RESOURCES FOR TEACHING KG LESSONS

Teaching and learning resources (TLRs)

Session objectives

Say: 

- In this session, we shall be discussing teaching and learning resources used in KG lessons.

By the end of this session you will be able to:

- identify and choose appropriate teaching and learning resources needed to facilitate KG lessons.
- Distinguish between resources that can easily be improvised and those that can be obtained at no cost, low or high cost.

Resources needed: Flip charts, markers, sticky notes, white board and a pen, or a blackboard and chalk

Discuss how to identify and select classroom resources needed to facilitate KG lessons (25 mins).

Do: 

- Ask participants to brainstorm on **Teaching and Learning Resources for KG lessons** (Participants can also get information from KG Teacher INSET Framework and the Minimum TLM package)
- Inform participants to write down the key issues in the content for discussion.

DO: 

- Present **PPT 7** and ask participants to note down their points for discussion.
- After the presentation, refer participants to the Teacher Resource Pack to study the list of teaching and learning resources that can be used in KG lessons and explain how each of the TLRs listed can be used to support KG learner's development.
- Guide participants to work in group to complete the chart in the Teacher Resource Pack.
- As part of the group work, ask each group to list three ways of making TLRs effective and efficient learning

	aids and other three ways that can adversely influence the use of TLRs in KG lessons. • Invite groups to present their work for a whole group discussion Say:  • Each group should use masking tape to paste their work on the wall so we can go round and read from them. • Please spend three minutes on each chart and write down your points for plenary discussions. Do:  • Call a member from each group to share two things they learnt from the gallery walk. Do:  ▪ Assign strands to participants. ▪ Have each group select a sub-strand. ▪ Ask groups to choose at least 2 indicators and list all the appropriate TLRs for teaching each indicator and suggest how these resources can be obtained. ▪ Invite them to present their work for a whole group discussion. • Summarise the session by drawing their attention to creating a safe environment for learning and the need to make use of child friendly TLRs. • Bring the Session to an end by thanking participants for their active involvement.
--	--

SESSION 3.3: USE OF INSTRUCTIONAL TIME

Session objectives

Say:

- In this session, we shall be discussing the use of instructional time: phases/stages of a Lesson.
- By the end of this session you will be able to:
 - ✓ describe the stages/phases of a lesson plan.
 - ✓ demonstrate efficient use of instructional time.

Presentation and discussion on the use of instructional time

Do:

- In plenary, ask participants to come out with the meaning of instructional time and time on task.
- Use **PPT 8** and the Teacher Resource Pack to take participants through the format/phases of the lesson, e.g. time allocation, activities, of stages of a KG lesson etc.
- Invite participants to ask questions for clarification.

Group work

- Ask small groups of participants to discuss:
 - i. the proportion of instructional time each Phase/Stage takes in the new KG curriculum (10 mins): time allocation and the activities for each stage. They should compare the new format with the old lesson format and identify similarities and differences.
 - ii. how to use instructional time efficiently.
- Invite groups to present the outcome of their discussions.
- Invite participants to ask questions for clarification.

Session 3.4: WRITING SCHEME OF LEARNING

Group Plenary	Session objectives Say:  • In this session, we shall study the format/template for writing scheme of learning and use it to prepare scheme of learning from the revised KG curriculum. By the end of this session you will be able to: ✓ explain the format/template for scheme of learning; ✓ write scheme of learning for a standards-based curriculum.  Resources needed: Flip charts, markers, sticky notes and sample Scheme of Learning Presentation and discussion on the new formats for writing Scheme of Learning (20 mins) Say:  • What is Scheme of Learning? Why do you prepare scheme of learning? I want you to write your answers on a sticky pad and share your elbow partner. Do:  • Invite 2-3 participants to share their answers with the whole group. • Take participants through the new format for writing scheme of learning as you present PPT 8.
---	---

Group Presentations (45 min)

Hands-on practise on using the new format for writing Scheme of Learning [Group work] (25 mins)

Say: 

- Now that you are familiar with how to prepare the scheme of learning in your groups, pick the revised KG curriculum and prepare a scheme of learning for KG learners.
- Task each group to plan and write weekly scheme of learning for a particular level/year group

Group Presentations (45 mins)

Group presentations and discussions on schemes of learning written in the format/template provided

Do: 

- Invite groups to present their work for comments from their peers.
- Encourage participants to comment on their colleagues' presentations.
- Call one member from each group to mention one new thing they have learnt and another thing that they may need clarification (10mins).
- Use questions and answers to clarify unresolved issues and bring the session to an end (5mins).

Say: 

- You have all done well, clap for yourselves and use 3mins to stretch for another lessons.

SESSION 3.5: LESSON PLANNING AND DEMONSTRATION

  	Session Objectives Say:  In this session, we shall be looking at the new format for writing Lesson plan and how to use the revised KG Curriculum to write a lesson plan. By the end of this session you will be able to: ✓ Explain the new lesson plan format. ✓ Plan and write a lesson using the new format.  Resources needed: Flip charts, markers, sticky notes, Sample lesson plan, resource pack etc. *** Presentation and discussion on the new format for writing Lesson Plan (30 mins) Say:  • What is a lesson plan? Why do you write lesson plans? What are the components of a lesson plan? I want you to reflect on these questions for one minute. Then turn to your elbow partner to share your answers. Do:  • Invite 2-3 participants to share their answers in a plenary. Say:  • Yes, you are all familiar with lesson planning and preparation. With the new curriculum, you will continue to
--	---

plan your lessons before you teach. There is a little modification to the format to ensure the needs of all learners are catered for. Let us now look at the new format.

Do: 

- **Present PPT 10** while asking questions based on the presentation to capture participants' attention.
- Take participants through the format/template provided for writing a lesson plan in the Teacher Resource Pack to consolidate their understanding.
- Give participants time to study the format/template.
- Give participants 10 minutes to discuss the lesson plan format/template.
- Invite questions for clarification.

Hands-on practise on using the new format for writing lesson plan [Group work] (60 mins)

Say: 

- You are now going to practise how to prepare lesson plan in your groups.

Do: 

- Put participants into five (5) groups.
- Task each group to select a content standard and indicator(s) and write a lesson plan for either KG 1 or 2. Participants can ballot for the levels they want to write the lesson plan for. In your lesson plan, use varieties of pedagogies including differentiation and play-based activity to promote inclusive learning.
- Go round to provide support.

Group presentations and discussions on lesson planning in the new format (75 mins)

Do: 

- Invite groups to present their work for comments from their peers.

- Encourage participants to comment on their colleagues' presentations.

Demonstration of KG lesson

Say: 

- I am going to demonstrate a 30-minute KG lesson.
- During the demonstration, you will participate as learners. At the same time, observe the lesson critically because you will practice it.

Do: 

- Demonstrate a 30-minute KG lesson.
- Ask participants to discuss the lesson observed: the starter, main activities and reflection.

Lesson Practice Time

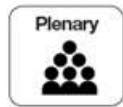

Say: 

- It is now your turn to demonstrate a 30-minute KG lesson. Spend a few minutes to prepare TLMs for the lesson you designed in the previous session.

Do: 

- Invite pairs of participants to deliver their lessons.
- Ask participants to comment on the lessons observed: the starter, main activities and reflection.
- Thank participants for their participation and end the session.

End of Day Check-in

End of Day Check-in (10 mins)

Say: 

- What are the key lessons you have learnt today?
- What was your favourite part? Why?
- What do you think will be the most challenging for you as a trainer/teacher?
- Write one thing you already knew, one thing that you have learnt today, and one question you still have on sticky notes. After that, share one thing you have learnt with your partner.

Facilitator's Note: Give out three (3) different colours of the sticky notes: One colour for what they already knew, one for what they learnt, and one for a question they still have.

Do: 

- Invite a few participants to share one thing they have learnt with the whole group.
- Ask participants to post their sticky notes on the wall
- Thank participants for their contributions and hard work.

DAY 4

Module 4: PROFESSIONAL LEARNING COMMUNITY (PLC), PRACTISE & REFLECTION AGENDA

Session 4.1: Review of previous day's work & Overview of Module 4	9.00 – 9.20 am 20 minutes
Session 4.2: Reflective Practice: Professional Learning Community (PLC)/School-Based In-service (SBI) – Presentation and discussion on basic features of the PLC/SBI and its advantages in promoting reflective practices and whole school development	9.20-10.20 am 1 hour
Session 4.3: Roles and responsibilities of the Key Actors¹ in the PLC (DDE, CS, HT, CL/Coach and teachers) – <i>Presentation and discussion on roles and responsibilities of the Key Actors</i>	10.20-11.00 am 40 minutes
Snack Break	
Session 4.4: Coaching Sessions – Presentation on the activities of a coaching session with a focus on reflective practice cycle, i.e. teach, self-assess, consider, practice, teach, etc. – <i>Plan to role play a coaching session on how to prepare for teaching [insert subject] curriculum</i>	11.15am –12.15pm 60 minutes
4.4 contd.: Coaching Sessions – <i>Role playing a coaching session and discussions on the session (Group work)</i>	12.15am – .00pm 45 minutes
Lunch Break	
Session 4.5: Monitoring and Evaluation, Reporting on Progress, Planning – <i>Presentation and discussion on</i> <i>i. the need for regular monitoring and evaluation of the curriculum implementation process,</i> <i>ii. planning to report on progress and the evaluation tools (M&E, FOI, etc.)</i>	3.45pm – 5.00pm 1.15 hours
Health Break	
Session 4.6: Next Steps & Closing	

Session 4.1: Review of previous day's work & Overview of Module 4

Review & Overview

Say: 

- Welcome everyone!
- Let's practise a sound game to warm ourselves

Do: 

- a) Hold up a letter card.
- b) Ask participants to say the sound of the letter.
- c) Ask all participants whose first names begin with that letter to step forward and form a queue. Ask them to mention the sound of the letter followed by a name of an adjective that begins with the same sound.
- d) Repeat points 'a' to 'c' but with five (5) different letters, once at a time.
- e) Ask them to clap for themselves and be seated for the session.

Review of previous day's work (15 mins)

Say: 

- What are the new things you learnt yesterday? Share with us.

Do: 

- Ask participants to get closer to another person and summarise yesterday's lessons in 4 sentences.
- Invite 2-3 participants to share their summary in a plenary discussion.

Overview of Module 4 (5 mins)

Say: 

In this module, we shall be discussing:

	✓ Professional Learning Community (PLC)/School-Based INSET (SBI) ✓ Roles and responsibilities of the Key Actors in the PLC (DDE, CS, ECE Coordinators, DMT,DTSTs, HT, CL/Coach and teachers) ✓ Coaching Sessions ✓ Monitoring and Evaluation, Reporting on Progress, Planning
--	--

Session 4.2: Professional Learning Community (PLC)/School-Based IN-SET (SBI)

Session Objectives

Say:

In this session, we shall be talking about professional learning community (PLC) and School-Based IN-SET (SBI).

By the end of the session, you will be able to:

- ✓ explain the basic features of a professional learning community (PLC) and their potential for creating a new teaching culture where KG teachers will be willing to support one another.

PLC-SBI

Do:

- Ask participants in their home groups to look for information on Professional Learning Community from the Resource Pack and discuss as they write down their comments, questions and new things been learnt.
- Use **PPT 11** to present the basic features of the PLC-SBI and its advantages in promoting whole school development **(30 mins)**.
- Ask participants to move from their home groups and join other groups to form groups of five (5) and share ideas while trying to discuss questions that came up from their readings.
- Invite a person from each of the reconfigured groups to share what they learnt.
- Ask them to move to their home group and find out if there are questions that have not been answered. If there are, ask them to write those questions on a post card and put them in a parking lot for them to be attended to.

End of Session

Say:

- Thank you for your contributions to this session, you have all done well, clap for yourselves and take your seats for the next session.

Session 4.3: ROLES AND RESPONSIBILITIES OF THE KEY ACTORS IN THE PLC (DDE, CS, HT, CL/COACH AND TEACHERS)

	Presentation and discussion on roles and responsibilities of the Key Actors (20 min) Session Objectives Say:  - In this session, we shall be talking about the roles and responsibilities of the key actors (DDE, DICs, CS, District ECE Coordinators, DMTs, DTSTs, HT, CL/Coach and teachers) in the PLC. By the end of the session, you will be able to: ✓ explain the roles and responsibilities of the key actors (DDE, DICs, CS, District ECE Coordinators, DMTs, DTSTs, HT, CL/Coach and teachers) in the PLC. PLC-SBI Do:  - Refer participants to the teachers Resource Pack to read on Roles and responsibilities of Key Actors in PLCs. - Present PPT 12, on the roles and responsibilities of the Key Actors of the PLC/SBI (20 mins) Lead a discussion on the presentation. Say:  - In your home groups, discuss what you learnt from the Teachers Resource Pack and the PPT 12, and summarise them for plenary discussion. DO:  Ask each group, one at a time to step forward and present what they learnt from their home group discussion. Give opportunity for participants to ask questions at the end of home group presentations. Say:  - Thank you, you have all done well. I hope you have learnt a lot from this session. Let us sing one KG song while we shake hands with one another to show appreciation towards each other's contribution.

Session 4.4: COACHING SESSIONS

Group  Plenary  Subject Group 	Lesson Planning • Presentation on the activities of a coaching session with a focus on reflective practise cycle, i.e. teach, self-assess, consider, practise, teach, etc. (20 mins). Session Objectives Say:  • In this session, we shall be discussing about coaching with our focus on reflective practise cycle and self-assessment. By the end of this session, you will be able to do: • Presentations on the activities of a coaching session with a focus on reflective practise cycle, i.e. teach, self-assess, consider, practise, teach, etc. (20 mins) PPT 13. Say:  • Write down what comes to mind when you hear the word “coach” and what the coach does and find someone who has also answered these questions so you can share your thoughts (5 mins). Do:  • Ask 2–3 pairs to share their thoughts about coaching (5 mins). • Present PPT 13 on the structure of coaching and ask participants to write down their points of digressions for discussion. (15 mins). Refer participant to Teachers Resource Pack for more information on coaching. Give exercise on CASE STUDY SLIDE Say: 
--	---

	- Now that you are well-versed with coaching, answer the following questions on a sticky pad and paste it on a wall for gallery walk. a. What is reflective practise and how does it support coaching. DO:  - Give out exercise sheet on coaching and mentoring to home groups to discuss and score. - Ask them to compare their answers with others and provide Role Play Say:  - Now that you have learnt about coaching, go back to your home groups and rehearse a role play on coaching with focus on reflective practise. Use the new lesson plan format to prepare a lesson on teaching role play from the revised KG curriculum DO:  - Let each home group role play what they planned and rehearse for other groups to comment on the lesson plan and the lesson based on the new format and reflective practise. - Lead a discussion on the characteristics and values of a Peer Coach. Have participants brainstorm on the question below: In your opinion, what are the most important characteristics of coach? And why? (15 mins) - Thank participants for their immense contributions to the session and ask them to stretch for two minutes to prepare for the next session.
	

Session 4.5: Monitoring and Evaluation, Reporting on Progress, Planning

	PLC: Monitoring learners' progress • Presentation on the need for regular monitoring and evaluation of the curriculum implementation process at PLC meeting (15 min).
	• Present PPT 14 on the need for regular monitoring and evaluation of the curriculum implementation process at PLC/SBI meeting (15 mins) Discussion on the presentation (15 mins). DO: ★ ▪ Lead the discussion on the presentation (15 mins).
	A schedule for PLC meetings to be held in a term with agendas (10 mins). DO: ★ ▪ Ask participants to work in their home groups to produce a schedule for PLC meetings to be held in a term with agenda. State: - the evaluation tools (test, FOI, etc.) that will be used to assess progress), - how progress would be reported (30 mins). ▪ Encourage participants to keep comments and observations to the end of the group presentations for discussion (30 mins). ▪ Thank Participants for their efforts and contributions. Find out from participants whether their expectations on Day One have been met.

End of Workshop Review

Say:  say:

- All too soon, we have come to the end of our workshop. We need you to complete the same self-assessment sheets that you completed on day one of the workshop. You will also answer post-workshop evaluation questions.

Do: 

- Distribute the self-assessment sheets and post-workshop evaluation forms to participants.
- Give participants time to complete the questions.
- Collect both the self-assessment sheets and post-evaluation forms.
- Thank participants and congratulate them for a successful workshop.

Appendix: Roles and Responsibilities of Trainers

All master trainers and regional trainers must:

- Attend and complete a training of trainer course organised by NaCCA. Every trainer must be able to demonstrate proficiency in delivery of training materials by the conclusion of the training.
- Coordinate and create a schedule for all required courses for training at regional and district level with support of Curriculum Developers. Communicate schedule to other trainers to ensure the training needs of all teachers are met.
- Instruct scheduled program sessions using materials, visual aids, and other instructional techniques provided by NaCCA to ensure information delivered is in compliance with NaCCA objectives.
- Administer program evaluations to participants during training sessions and send completed evaluations to NaCCA through the Project Manager.
- Review program evaluation summaries, as provided by the Executive Secretary for potential ways to improve future trainings.
- Additional duties as assigned.
- Write a report on training sessions and submit a soft copy to the Executive Secretary of NaCCA , not later than 24 hours after the close of workshop.
