"This Pupil Book is made possible by the support of the American People through the United States Agency for International Development (USAID). The contents of this Pupil Book are the sole responsibility of FHI 360 and do not necessarily reflect the views of USAID or the United States Government."

Foreword

The Ministry of Education/Ghana Education Service (MOE/GES) would like to thank the United States Agency for International Development (USAID) Partnership for Education: *Learning* for helping the Government of Ghana to improve the quality of early grade reading instruction in public basic schools. *Learning* supports the MOE/GES to improve learning outcomes in reading for pupils in KG2, B1, and B2 through a systematic phonic-based approach. This is achieved by developing and training teachers in the use of teaching and learning materials for reading instruction in 11 Ghanaian languages (GL) and oral English.

The reading program supported by *Learning* focuses on the teaching of the six most important components of reading instruction: phonological awareness, phonics (letter-sounds), fluency, vocabulary, comprehension and writing. The reading program is framed in the “simple view of reading,” which teaches pupils the skills needed to decode and to comprehend written words in order to become independent readers.

The reading program includes daily lessons with step-by-step instructions in a Teacher Guide, accompanied by a Pupil Textbook for each pupil in the classroom that contains pictures and texts that support the lessons. The Teacher Guide provides guidance on how to use the Pupil Book and other learning materials effectively to deliver engaging and effective reading lessons. The lessons are designed to be taught in two 30-minute blocks, in the morning (Lesson A) and afternoon (Lesson B) from Monday to Friday.

The Dagbani Prototype

The reading program has been prototyped in the Dagbani language as a precursor to the larger reading program in all 11 Ghanaian languages. The Teacher Guide and the Pupil Book developed for the Dagbani Prototype for B1, Terms 1 & 2 were piloted from January – July 2017 in 20 schools in the Yendi Municipal. Teachers, Headteachers, Curriculum Leads, Circuit Supervisors and Language Specialists from the Yendi Municipal were trained to strengthen their various roles to improve reading performance. This included trainings in reading pedagogy, classroom management, pupil assessment, and monitoring and supervision. *Learning* conducted base-line and mid-line assessment to track progress; and an end-line assessment will be conducted to find out how well the prototype has impacted the reading performance of the pupils. The mid-line results indicate that pupils who could read a syllable in Dagbani increased by 31% and pupils who could read a word in a decodable text increased by 26% after 8 weeks of prototype lessons.

We would like to particularly thank the Northern Regional Director of Education, the Municipal Director of Education and staff, teachers and pupils of the Yendi Municipal Assembly who have worked hard to ensure that the prototype reading program is successful.

Scale-up to the 11 Ghanaian Languages of Instruction

The prototype program was tested and refined; and the lessons learned during prototyping were fed directly into the development of teaching and learning materials for all 11 Ghanaian languages of instruction and English, and the scale-up to 6,713 schools in 100 targeted districts. In preparation for the nationwide implementation, *Learning* has developed the Teacher Guide for KG2 and a Teacher Guide and Pupil Book for B1 for the 2017-2018 school year. B2 materials will be developed for the 2018 – 2019 school year.

We would like to thank the MOE/GES and national and regional language and pedagogical experts who served as validators to ensure the materials are of high quality and have met the standards set by GES for teaching and learning materials for early grade children in Ghana. We appreciate the input and guidance provided by the following persons of the MOE/GES: Mrs. Cynthia Bosumtwi-Sam, the Acting Executive Secretary, National Inspectorate Board; Mrs. Felicia Boakye-Yiadom, Acting Executive Secretary, National Council for Curriculum and Assessment; and Dr. Evelyn Oduro, the Acting Executive Secretary, National Teaching Council.

Finally, we thank the *Learning* staff, consultants from FHI360 and Summer Institute of Linguistics (SIL) Africa, as well as Ghana Institute of Linguistics, Literacy and Bible Translation (GILLBT) staff for their expertise in the development and the production of these materials that meet high Ghanaian and international teaching and learning standards. These materials and the trainings in their use will go a long way to support Ghana's goal of improving reading performance and pedagogical excellence in early grade reading in Ghana.

Prof. Kwasi Opoku-Amankwa

(Director-General, Ghana Education Service)
