"This Pupil Reader is made possible by the support of the American People through the United States Agency for International Development (USAID). The contents of this Pupil Reader are the sole responsibility of FHI 360 and do not necessarily reflect the views of USAID or the United States Government."

Foreword

The Ministry of Education/Ghana Education Service (MOE/GES) would like to thank the United States Agency for International Development (USAID) Partnership for Education: *Learning* for helping the Government of Ghana to improve the quality of early grade reading instruction in public basic schools. *Learning* supports the MOE/GES to improve learning outcomes in reading for pupils in KG2, B1, and B2 through a systematic phonics-based approach. This is achieved by developing teaching and learning materials and training Teachers, Headteachers, Curriculum Leads, as well as District Teacher Support Teams (DTST), Circuit Supervisors (CS) to monitor and provide ongoing support in the use of the materials for reading instruction in 11 Ghanaian languages.

The reading program supported by *Learning* focuses on the teaching of the six most important components of reading instruction: phonological awareness, phonics, fluency, vocabulary, comprehension and writing. The reading program is framed in the “simple view of reading,” which teaches pupils the skills needed to decode and to comprehend written words in order to become independent readers.

The reading program for Basic 2 (B2) includes daily lessons with step-by-step instructions in a Teacher Guide, accompanied by a Pupil Reader for each pupil in the classroom, which contains exercises, pictures and texts that support the lessons. The Teacher Guide and associated teacher trainings conducted by Learning and GES, provide guidance on how to use the Pupil Reader and other learning materials to deliver engaging and effective reading lessons. The lessons are designed to be taught in 60 minutes each day, from Monday to Friday.

The Dagbani Prototype

The reading program was prototyped in the Dagbani language as a precursor to the larger reading program in all 11 Ghanaian languages of instruction. The Teacher Guide and the Pupil Book developed for the Dagbani Prototype for B1, Terms 1-3 were piloted from January-July 2017 in 20 schools in the Yendi Municipal, while samples from B2 Term 1 were piloted in March 2018. Teachers, Headteachers, Curriculum Leads, Circuit Supervisors and Language Specialists from Yendi Municipal were trained to strengthen their various roles to improve reading performance.

Scale-up to the 11 Ghanaian Languages of Instruction

The lessons learned during prototyping were fed directly and immediately into the development of teaching and learning materials for all 11 Ghanaian languages of instruction, and the scale-up to over 7,200 schools in 100 targeted districts. Nationwide implementation of the program began in the 2017-2018 school year with KG2 and B1, and B2 implementation begins in the 2018-2019 school year.

Throughout the academic year 2017-2018, Teachers, Circuit Supervisors, and the USAID/*Learning* team conducted a variety of assessments to monitor pupils' progress in key reading skills in KG2 and B1. Initial results show improvement in pupils' letter sound knowledge, word reading, and oral reading fluency skills. The B2 materials build on this progress by teaching pupils more advanced word reading and reading for meaning skills and providing pupils with a variety of reading experiences at increasing levels of difficulty.

Finally, we thank the USAID/*Learning* staff, consultants from FHI360 and SIL International, as well as Ghana Institute of Linguistics, Literacy and Bible Translation (GILLBT) language staff, for their technical expertise in the development and the production of the materials that meet high Ghanaian and international teaching and learning standards. These materials and the trainings in their use will go a long way to support Ghana's goal of improving pedagogical excellence in early grade reading in Ghana.

Prof. Kwasi Opoku-Amankwa
